PAGE 9

3.2.3, line 3: Add the following: "As an alternate to stirrup pull, long tab pulls with holes large enough to accommodate a thong may be used, unless otherwise designated".

PAGE 12

3.3.9, line 10: Delete "L-P-392" and substitute "ASTM D 4181"

PAGE 13

3.4.1.1, first and second sentences: Delete and substitute "The two bottom tape ends of type IV and V fasteners shall be treated on the tape face or back to prevent ravelling or fraying. The treatment shall be across the full width (+1/16, -1/8 inch) of the tape, for a distance no less than 3/16 inch from the bottom of each tape. As an alternate, the face and back of each bottom tape end shall be treated so the treatment abuts and extends not less than 3/8 inch beyond the retainer on the other tape. The alternate treatment shall extend no less than 3/16 inch from the bottom of each tape. All top tape ends shall be prevented from ravelling or fraying by coating tape, by bonded reinforcement, by impregnation, by cutting with a hot knife, by ultrasonic sealing, or by pinking."

3.4.3.1: Delete and substitute:

"3.4.3.1 Water-resistant treatment. When water resistance treatment is specified (see 3.4.1 and 6.2,n.), the tapes shall be tested for water resistance. Treated tapes, except those of 100 percent polyester, shall not absorb more than 40 percent water based on the weight of the tape when tested after one laundering as specified in 4.5.13. 100 percent polyester treated tape shall not absorb more than 9.5 percent water based on the weight of the tape when tested after one laundering as specified in 4.5.13."

PAGE 53

5.3, lines 5 and 6: Delete "K and L or film bonding means O or P." and substitute "C and D or film bonding means F or G."

PAGE 56

6.6: Add new sub-letter c. as follows:

"c. If part a. and b. equipment is not available, then use of the apparatus in accordance with ASTM D 2060 (see 4.5.19) is permitted."
