FEDERAL SPECIFICATION

CONES AND WHEELS; FELT, DENTAL GRINDING AND POLISHING MACHINE

This specification was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

1. SCOPE AND CLASSIFICATION

1.1 **Scope.**—This specification covers felt cones and wheels for use in dental office and laboratories for polishing dental appliances and restorations.

1.2 **Classification**

1.2.1 *Types and sizes.*—Cones and wheels in accordance with this specification shall be of the following types and sizes, as specified in the invitation for bids:

Type I.—Cone, blunt.
Type II.—Cone, pointed.
Size 1.
Size 2.
Type III.—Wheel, square edge.
Type IV.—Wheel, knife edge.

2. APPLICABLE SPECIFICATIONS AND STANDARDS

2.1 **Specifications and standards.**—The following specifications and standard of the issue in effect on date of invitation for bids, form a part of this specification.

Federal Specifications:

C-F-206—Felt, Sheet, Wool, Pressed.
CCC-T-191—Textile Test Methods.
PPP-B-566 — Boxes, Folding, Paperboard.
PPP-B-621 — Boxes, Wood, Nailed and Lock-Corner.
PPP-B-676 — Boxes, Set-Up, Paperboard.

(Activities outside the Federal Government may obtain copies of Federal Specifications and Standards as outlined under General Information in the Index of Federal Specifications and Standards and at the prices indicated in the Index. The Index, which includes cumulative monthly supplements as issued, is for sale on a subscription basis by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

(Single copies of this specification and other product specifications required by activities outside the Federal Government for bidding purposes are available without charge at the General Services Administration Regional Offices in Boston, New York, Atlanta, Chicago, Kansas City, Mo., Dallas, Denver, San Francisco, Los Angeles, Seattle, and Washington, D. C.

(Federal Government activities may obtain copies of Federal Specifications and Standards and the Index of Federal Specifications and Standards from established distribution points in their agencies.)

Military Specifications:

MIL-L-10547 — Liners, Case, Waterproof.

Military Standards:

MIL-STD-129 — Marking for Shipment and Storage.

402121/57/No. 289

FSC Class 6520

(Copies of Military Specifications and Standards required by the contractor in connection with specific procurement functions, should be obtained from the procuring activity or as directed by the contracting officer.)

3. REQUIREMENTS

3.1 Material.—The cones and wheels shall be made from first grade 100 percent, pressed, white wool felt, and shall conform to the applicable requirements of Federal Specification C–F–206.

3.2 Holes.—The cones and wheels shall have holes drilled in the centers for attachment of standard tapering-screw dental-lathe chucks, and shall run true when mounted on chucks.

3.3 Centers.—The cones and wheels shall have hard shellac centers, hardened not less than 0.25 inch from the chuck holes.

3.4 Fiber identification.—When tested as described in paragraph 4.3, the cones and wheels shall be free from fibers of fur, hair, or other adulterations.

3.5 Type I, cone, blunt.—The cones shall be approximately 2 inches in length, approximately 1 inch in diameter, and shall be finished to a blunt end of 0.5-inch radius.

3.6 Type II cone, pointed.

3.6.1 *Size 1.*—The cone shall be approximately 1.5 inches in length, approximately 0.75 inch in diameter, and beginning approximately 0.37 inch from the end shall gradually taper to a rounded point.

3.6.2 *Size 2.*—The cone shall be approximately 2 inches in length, approximately 1 inch in diameter, and beginning approximately 0.62 inch from the end shall gradually taper to a rounded point.

3.7 Type III wheel, square edge. — The wheels shall be approximately 2.25 inches in diameter and approximately 0.5 inch thick.

3.8 Type IV wheel, knife edge. — The wheels shall be approximately 1.75 inch in diameter and approximately 0.22 inch thick at the center, tapering gradually to a knife edge. The edge shall be firm and durable.

3.9 Workmanship.—Workmanship shall be first class in every respect. The cones and wheels shall be smoothly and properly finished and shall be free from imperfections which will affect their appearance or may affect their serviceability.

4. SAMPLING, INSPECTION, AND TEST PROCEDURES

4.1 Sampling.—Unless otherwise specified, not less than two cones or two wheels of each type delivered shall be taken at random for inspection.

4.2 Inspection.—Samples shall be inspected for compliance with the requirements of this specification.

4.3 Fiber tests.—Samples shall be tested for fiber identification and quantitative determination as specified in Federal Specification CCC–T–191.

5. PREPARATION FOR DELIVERY

(For definitions and levels, see 6.1).

5.1 Packaging.

5.1.1 *Unit of issue.*—One (1) cone or wheel, as specified, constitutes one unit.

5.1.2 *Packaging quantities.*—The number of units indicated in table I shall be packaged in each unit, intermediate, and exterior container, as applicable, for the required level of protection specified in procurement document.

5.1.2.1 *Packing variation permitted.* — If the required number of units to be shipped is less than the number of units specified to be overpacked in an exterior container, such units shall be packed in an exterior container

TABLE I.—*Packaging quantities*

Federal Stock No.	Unit package	Intermediate package	Protective package	Shipping container
6520–517–9000	Not required	12 units	144 units	864 units

of suitable size and design, acceptable to a common carrier, which will insure safe delivery to destination.

5.1.3 *Level A.*

5.1.3.1 *Intermediate package.*—Intermediate package shall be a carton of appropriate size constructed in accordance with Federal Specification PPP–B–566. Closure shall be effected in such manner as to prevent spillage of contents under normal handling.

5.1.3.2 *Protective package.* — Protective package shall be a carton of appropriate size constructed in accordance with Federal Specification PPP–B–676. Closure shall be effected in such manner as to prevent spillage of contents under normal handling.

5.1.4 *Level C.*—Unless otherwise specified, commercial packages are acceptable.

5.2 **Packing.**

5.2.1 *Level A.*

5.2.1.1 *Exterior container.*—Exterior container shall be designed for type 2 load and constructed in accordance with Federal Specification PPP–B–621, table III.

5.2.1.2 *Case liner.*—Each box shall be lined with a waterproof case liner conforming to Military Specification MIL–L–10547. Closure and sealing shall conform to applicable paragraphs of appendix thereto.

5.2.1.3 *Strapping.* — Strapping (when required) shall be in accordance with applicable box specification.

Note.—Strapping will not be required for shipments forwarded to a receiving activity within the continental limits of the United States for storage and re-distribution.

5.2.2 *Level B.*

5.2.2.1 *Exterior container.*—Exterior container shall be designed for type 2 load. Construction, closure, and strapping (when required) shall be in accordance with Federal Specification PPP–B–621, table I.

5.2.3 *Level C.* — The subject commodity shall be packed in substantial commercial containers of the type, size, and kind commonly used for the purpose, so constructed as to insure acceptance and safe delivery by common or other carriers, at the lowest rate, to point of delivery called for in the contract or purchase order.

5.3 **Marking.**

5.3.1 *Interior packages.*—Each intermediate package and protective package shall be marked in accordance with section 5 of Military Standard MIL–STD–129.

5.3.2 *Shipping container.*—Shipping container shall be marked in accordance with Military Standard MIL–STD–129. Service color marking and symbol are not required on containers for level A packs when addressed to domestic establishments.

6. NOTES

6.1 Federal Standard 102 should be referred to for definitions and applications of the various levels of packaging protection for supplies and equipment.

6.2 **Ordering data.** — Purchasers should specify type and size required and should exercise any desired options offered herein. (See 1.2.1, 4.1, 5.1 and 5.2.)

Check the source to verify that this is the current version before use.

6.3 It is believed that this specification adequately describes the characteristics necessary to secure the desired material, and that normally no samples will be necessary prior to award to determine compliance with this specification. If, for any particular purpose, samples with bids are necessary, they should be specifically asked for in the invitation for bids and the particular purpose to be served by the bid samples should be definitely stated, the specification to apply in all other respects.

6.4 This specification does not include all types, classes, grades, sizes, etc., of the commodity indicated by the title of the specification, or which are commercially available, but is intended to cover the type, etc., normally procured to meet Federal Government requirements.

6.5 **Transportation description.**—Transportation description applicable to these items is:

Wheels, buffing or polishing, NOIBN.
Carload minimum weight 30,000 pounds.
Motor volume minimum weight 30,000 pounds.

6.6 This specification covers the following item appearing in the Armed Services Medical Stock List:

6520–517–9000 — Cone, Felt, Dental Grinding and Polishing Machine, Pointed.

Patent notice.—When government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility, nor any obligation whatsoever and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data, is not to be regarded by implication or otherwise, as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.

MILITARY INTERESTS:
Army—M
Navy—Md
Air Force.

Copies of this specification may be purchased for 10 cents each.
