INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

HANDLES, WOOD, ACME THREADED
AND CIRCULAR TAPERED END

This interim amendment was developed by General Services Administration, Federal Supply Service, Washington, DC 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this amendment as a valid exception to Federal Specification NN-H-104 dated August 11, 1965

PAGE 1

Paragraph 2.1, under "Federal Specifications", delete "UU-T-111" and title, and substitute "PPP-T-45 Tape, Gummed, Paper, Reinforced and Plain, For Sealing and Securing." Add "T-T-881 - Twine, Cotton, Seine."

Paragraph 2.1, under "Federal Standards": Delete "Fed. Std. No. 102 - Preservation, Packaging, and Packing Levels."

PAGE 2

Paragraph 2.1, under "Military Specification": Delete "MIL-S-6110", and title. Under "Military Standards" add "MIL-STD-1363 - Measurement of Wood, Moisture Content."

Paragraph 3.1.1, second sentence: Delete and substitute "The wood shall be thoroughly seasoned so that the handle, prior to finishing 3.5, shall have a moisture content of not less than 8.0 percent and not more than 12.0 percent when tested in accordance with "MIL-STD-1363."

Paragraph 3.2.1.1, first sentence, add the following: "except a tolerance of plus 1/16 inch is permitted for the length of the threading."

PAGE 4

Paragraph 4.2.1.2: Delete and substitute: "4.2.1.2 Testing of the end item. Each lot of unfinished handles shall be tested in accordance with 4.4 for moisture content of the wood. When specified, a certificate of compliance for moisture content will be acceptable."

Paragraph 4.4.1, first sentence: Delete and substitute: "The moisture content of the unfinished wood handles shall be determined in accordance with MIL-STD-1363."

PAGE 5

Under "5. PREPARATION OF DELIVERY" delete parenthetical paragraph referencing "Fed. Std. No. 102".

Paragraph 5.1.1: Delete and substitute:

"5.1.1 Level A.

5.1.1.1 Handles (except 10 foot and 12 foot lengths). Twelve handles of one type, size, and length shall be formed into a tight rectangular bundle by applying not less than two bands of tape conforming to type III of PPP-T-97 or two ties of twine conforming to type I of T-T-881. The ends of the bundle shall be protected by scored and slotted fiberboard trays extending not less than 6 inches from the ends of the handles. The trays shall be secured in place with filament tape. Alternatively, the bundle may be wrapped with two sheets of 50/60 pound paper conforming to UU-P-268 and secured with tape conforming to PPP-T-45.

5.1.1.2 Handles (10 foot and 12 foot lengths). Six handles separated into two section, of one length only, shall be packaged as specified in 5.1.1.1, except that the bundle shall be hexagonal in shape."
