MILITARY SPECIFICATION

WHEEL AND CARBON BRAKE ASSEMBLY

F-14A

GENERAL SPECIFICATION FOR

This amendment forms a part of Military Specification MIL-W-85091 (AS) dated 12 December 1977.

PAGE 23

3.3.9.2 Delete "20,000 hours as specified in Standard MIL-STD-781." and substitute "5300 hours-wheel and 3400 hours-brake where 1 flight is equivalent to 1 hour.

3.3.10.1.2.1 Delete entire paragraph and substitute "The mean man-hours to repair for Organizational level maintenance shall not exceed 0.5 man-hours, and the $M_{maxct}$ (90th percentile) shall not exceed 1.14 man-hours, excluding aircraft access. Repair at this level shall include trouble shooting, fault isolation, and functional checkout. Organizational level maintenance shall be accomplished without use of PGSE."

PAGE 36

4.3.1.5 Delete entire paragraph and substitute "Satisfactory completion of tests in Section 4.3 shall satisfy this requirement."

Add new paragraph "4.3.4 Failure Analysis and Corrective Action - In the event of failure of the equipment during testing in paragraph 4.3 the Contractor is responsible for informing the Procuring Activity of the failure and is responsible for a failure analysis in which the cause of the failure and the corrective action is stated."
