*Paragraph 3.5.1.4.(2): Delete the last sentence and substitute

"The switch shall be protected by a spring loaded cover while in the nonzeroize position to prevent accidental operation and shall have a spring return to the nonzeroize position."

PAGE 9

paragraph 3.5.1.6: Delete the last sentence and substitute

"The C-8057/ARC shall be designed for installation into different aircraft having different power supplies and panel illumination requirements. To prevent errors in aircraft installations, the control shall be shipped from the factory with illuminating lamps not installed, but enclosed in a separate envelope. Lamps to be enclosed are 5V (MS25237-328) and 28V (MS25237-327)."

The margins of this amendment are marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment.
