DETAIL SPECIFICATION SHEET

JOINT-UNIVERSAL, PLAIN, LIGHT DUTY

This specification is approved for use by all Departments and Agencies of the Department of Defense.

The requirements for acquiring the product described herein shall consist of this specification sheet and MIL-DTL-6193.

Check the source to verify that this is the current version before use.

NOTES:
1. Dimensions are in inches.
2. Metric equivalents are given for information only.
3. Tolerances unless other wise noted are ± .015 inches (0.38 mm).
4. All dimensions to be met after plating.
5. Maximum diameter at the center of the joint shall not exceed the “A” dimensions by more than .060 inch (1.52 mm).
6. Remove all burrs and sharp edges.

FIGURE 1. Universal joint dimensions and configurations - Continued.

REQUIREMENTS

Dimensions and configurations, see figure 1.

Part or Identifying Number (PIN):

Classification. The universal joints shall be of the following class and types:

Class 1: Light duty.

Type: See table I and figure 1.

TABLE I. Type designator.

Type designator	End configuration
A	Square
B	Round

Size: See table II and figure 1.

Source: https://assist.dla.mil -- Downloaded: 2026-10-23T14:22Z
Check the source to verify that this is the current version before use.

TABLE II. Size designator. 1/

Size designator		Nominal size of universal joint fraction	Nominal OD of universal joint inch	Nominal size of universal joint mm
Type A	Type B			
---	6	3/8	.375	9.53
8	8	1/2	.500	12.70
10	10	5/8	.625	15.88
12	12	3/4	.750	19.05
---	14	7/8	.875	22.23
16	16	1	1.000	25.40
20	20	1 1/4	1.250	31.75
24	24	1 1/2	1.500	38.10

1/ Size designators are SAE convention (16's of an inch).

Plating designator:

Blank - Cadmium
Z - Zinc

Guidance on use of alternative parts with less hazardous or non-hazardous materials. This specification provides for a number of alternative plating materials via the PIN. Users should select the PIN with the least hazardous material that meets the form, fit, and function requirements of their application.

Amendment notations. The margins of this specification are marked with vertical lines to indicate where modifications from this amendment were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this documents based on the entire content irrespective of the marginal notations.
