PARA 3.4.10: Change subparagraphs a. and b. to read the following:

"a. 1400 $\pm$ 30 pounds without MK-1079( )/G installed.
b. 1410 $\pm$ 30 pounds with MK-1079( )/G installed."

PAGE 10

PARA 3.6.2: Delete the third sentence and replace with the following: "There shall be no permanent deformation, buckling, delamination (see 6.5.2), sealer separation or structural weakness to any part of the shelter; except that deformation in the skids and skid mounting brackets shall not exceed 1/4 inch and a quarter moon shaped (3" x 13") delamination (bulge) which appears on the interior front panel along the floor between the two center members shall not be considered cause for failure."

PAGE 20

PARA 4.5.2.3.1: Delete the second sentence and replace with the following: "In the event that the first delivery quantity is less than 50 units, the sample shall be selected from the first delivery quantity but shall be considered the sample for the first 50 units. Thereafter one sample shall be selected from each additional 150 shelters or fraction thereof (see 3.6.2, 4.6.22, Table VI)."
