COMMERCIAL ITEM DESCRIPTION

PAPER, MANIFOLD

The General Services Administration has authorized the use of this commercial item description as a replacement UU-P-328 which is cancelled.

1. SCOPE This description covers 25 percent rag white manifold paper and white and colored chemical wood manifold paper.

2. CLASSIFICATION.

Type 1 - 25 percent rag, white manifold (JCP F20).
Type 2 - Chemical wood manifold, white and colored (JCP F10).

3. SALIENT CHARACTERISTICS:

3.1 Materials.

Type 1 - shall meet all requirements of JCP F20.
Type 2 - shall meet all requirements of JCP F10.

3.1.1 Basis weight. The basis weight of the manifold paper shall be as specified in the contract or order.

3.1.2 Size and trim. Size and trim of the manifold paper shall be as specified in the contract or order.

3.1.3 Grain. The grain of the manifold paper shall be as specified in the contract or order.

3.1.4 Color. The color of Type 1 manifold paper shall be white. The color of Type 2 manifold paper shall be white, blue, green, pink, salmon or yellow, as specified in the contract or order.

3.2 Workmanship. All types of paper in accordance with this specification shall be clean, free from dirt spots, oil spots, shives, foreign matter, and shall be uniform in color. The sheets shall be free from holes, tears, cuts, folds, scuff marks, lint, fuzz, or loose particles. There shall be no splices within a sheet and there shall be no partial sheets. There shall be no defects that affect appearance or serviceability.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to General Services Administration, Federal Supply Service, Engineering Branch, 26 Federal Plaza, New York, NY 10278.

3.3 Bleaching. To obtain an acceptable brightness, in accordance with the performance standards of this document, a chemical bleaching process may be used. When specified in the ordering data (See Ordering Data), the bleaching process shall not include the use of chlorine, chlorine dioxide, or chlorine compounds. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

4. REGULATORY REQUIREMENTS

4.1 The contractor shall certify that this item shall be no less than 50% recovered materials including 20% post consumer materials in accordance with Executive Order 12873, section 504 (b), dated October 20, 1993. As an alternative to meeting the standards of section 504(b) for all printing and writing papers, the minimum content standard shall be no less than 50% recovered materials that are a waste material byproduct of a finished product other than a paper or textile product which would otherwise be disposed of in a landfill, as determined by the State in which the facility is located, in accordance with Executive Order 12873, section 504 (c), dated October 20, 1993. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

4.2 Recycled Content Labeling. The recycled content shall be marked on the product or unit pack.

5. QUALITY ASSURANCE PROVISIONS

5.1 Contractor Certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this Commercial Item Description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

5.2 Testing, when applicable, shall be in accordance with Part 2, Testing Standards and Definitions, of the Government Paper Specification Standards published by the Joint Committee on Printing. (Note: See individual TAPPI's for specific sampling instructions).

5.2.1 Acceptance criteria shall be as specified in Part 4, Acceptance Criteria, of the Government Paper Specification Standards published by the Joint Committee on Printing.

6. PACKAGING, PACKING, AND MARKING Packaging, packing, and marking shall be as specified in the contract or order.

7. NOTES.

7.1. Applicable documents and documents sources. The following documents form a part of the Commercial Item Description to the extent specified herein. Unless otherwise indicated, the issue in effect on the date of invitation for bids or request for proposal shall apply:
