DETAIL SPECIFICATION

HORN, FLYER'S RELIEF TUBE

This specification is approved for use by all departments and agencies of the Department of Defense.

1. SCOPE

1.1 Scope. This specification covers one type of flyer's relief tube horn.

2. APPLICABLE DOCUMENTS (not applicable).

3. REQUIREMENTS

3.1 Material. The material shall be Maxxam FR PE 152 polyethylene or equal.

3.2 Color. Unless otherwise specified, the color shall be black (see 6.2).

3.3 Finish. Remove all burrs and sharp edges.

3.4 Dimensions. Dimensions shall be in accordance with Figure 1.

3.5 Tolerances. Unless otherwise specified in the contract or order, tolerances are ±1/32 inch (see 6.2).

Beneficial comments (recommendations, additions, deletions) and any pertinent data that may be of use in improving this document should be addressed to: Defense Supply Center Richmond, ATTN: DSCR-VBD, Richmond, VA 23297-5610, by using the Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document or by letter.

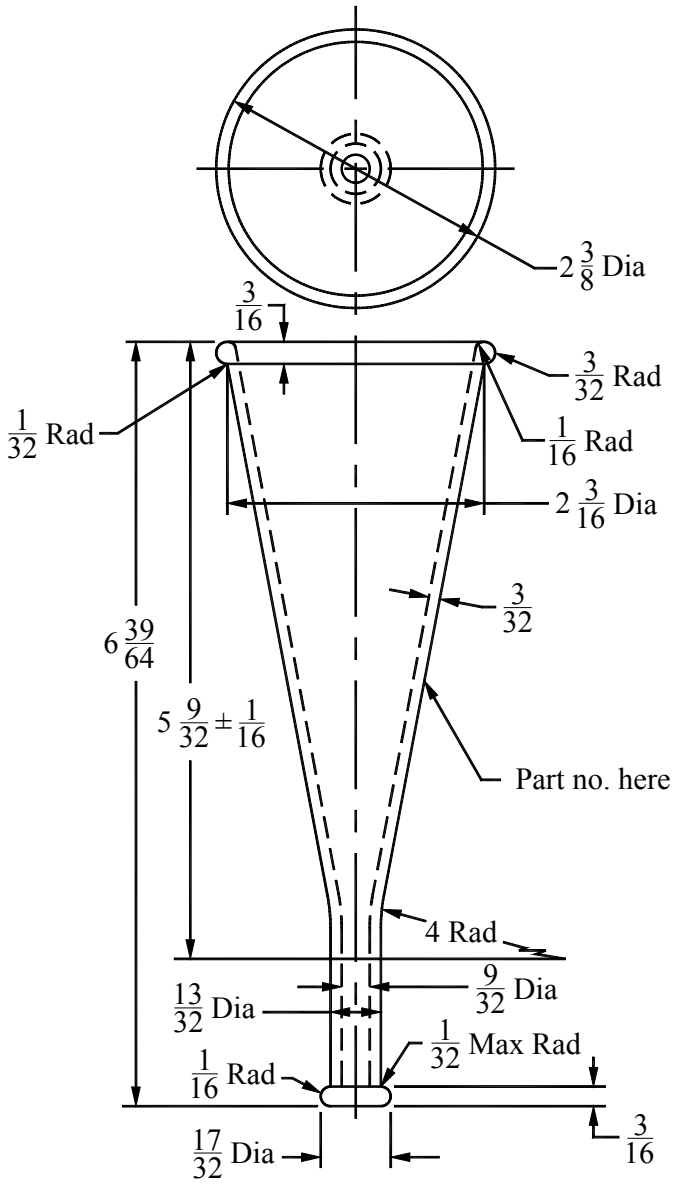

FIGURE 1. Horn, flyer's relief tube.

4. VERIFICATION

4.1 First article inspection . The horns shall be inspected to insure conformance to the dimensions in 4.4 and examinations specified in 4.5. The presence of any non-conforming dimension or any defect shall be cause for rejection of the first article.

4.2 Conformance inspection. The horns shall be inspected to insure conformance to the dimensions in 4.4 and examinations specified in 4.5.

4.3 Sample size. The sample size shall be specified in the contract or order (see 6.2).

Check the source to verify that this is the current version before use.

4.4 Dimensions. All dimensions shall be in accordance with Figure 1.

4.5 Examinations. The horns shall be visually examined to insure the absence of burrs, cracks, warping, and sharp edges.

5. PACKAGING

5.1 Packaging. For acquisition purposes, the packaging requirements shall be as specified in the contract or order (see 6.2). When actual packaging or materiel is to be performed by DoD personnel, these personnel need to contact the responsible packaging activity to ascertain requisite packaging requirements. Packaging requirements are maintained by the inventory control point's packaging activity within the military department or defense agency, or within the military department's system command. Packaging data retrieval is available from the managing military department's or defense agency's automated packaging files, CD-ROM products, or by contacting the responsible packaging activity.

6. NOTES

6.1 Intended use. This specification is intended for use in procuring flyer's relief tube horns used for the personal relief of aircraft crewmembers.

6.2 Acquisition requirements. Acquisition documents should specify the following:

a. Title, number, and date of this specification.
b. Color (see 3.2).
c. Tolerances (see 3.5).
d. Sample size (see 4).
e. Packaging (see 5).

6.3 Subject term (key word) listing.
