WITHDRAWAL OF ADOPTION NOTICE

The Department of Defense (DoD) is hereby withdrawing its adoption IEEE 1278.3, *IEEE Recommended Practice for Distributed Interactive Simulation – Exercise Management and Feedback*, as of 04 January 2017. IEEE 1730-2010, *Recommended Practice for Distributed Simulation Engineering and Execution Process (DSEEP)* replaces IEEE 1278.3 for DIS exercise management and feedback.

DSEEP was developed as a single standard for distributed simulation engineering and execution, and provides process maps for common distributed simulation architectures, including DIS, HLA and TENA. IEEE 1730.1-2013, *IEEE Recommended Practice for Distributed Simulation Engineering and Execution Process (DSEEP) Multi-Architecture Overlay (DMAO)* provides an overlay for engineering and execution of an exercise integrating more than one of these common distributed simulation architectures.
