ADOPTION NOTICE

ISO/IEC 18042-4, “Information Technology-Computer Graphics and Image Processing, Spatial Reference Model (SRM) Language Bindings: Part 4: C,” was adopted on August, 25, 2006, for use by the Department of Defense (DoD). Proposed changes by DoD activities must be submitted to the DoD Adopting Activity: Defense Modeling and Simulation Office, Attn: Standards, 1901 N. Beauregard Street, Alexandria, VA 22311-1705.

Electronic versions of the document may be downloaded from the SEDRIS Organization at http://www.sedris.org/ or the ISO/IEC Information Technology Task Force (ITTF) at http://isotc.iso.org/livelink/livelink/fetch/2000/2489/Ittf_Home/ITTF.htm. Copies may also be purchased from the International Organization for Standardization at http://www.iso.org or from the InterNational Committee for Information Technology Standards (INCITS) at http://www.incits.org/ or by contacting the INCITS Secretariat, c/o Information Technology Industry Council, 1250 Eye Street NW, Suite 200, Washington, DC 20005, Phone 202-737-8888, Fax 202-638-4922, and Email incits@itic.org.

ISO/IEC 18042.4 is part of the Synthetic Environmental Data Representation and Interchange Specification (SEDRIS) suite of international standards. ISO/IEC 18026, Spatial Reference Model (SRM), specifies a language independent application programmer interface (API). For integration into a programming language, the SRM API is embedded in a language dependent layer obeying the particular conventions of that language; this part of ISO/IEC 18042 specifies the language dependent layer for the C programming language

Custodians:
Army – AC
Navy – EC
Air Force – 05
DISA – DC2

Adopting Activity:
OSD – DMS
