ADOPTION NOTICE

ISO/IEC 18026, "Information Technology-Computer Graphics and Image Processing, Spatial Reference Model (SRM)," was adopted on August, 25 2006, for use by the Department of Defense (DoD). Proposed changes by DoD activities must be submitted to the DoD Adopting Activity: Defense Modeling and Simulation Office, Attn: Standards, 1901 N. Beauregard Street, Alexandria, VA 22311-1705.

Electronic versions of the document may be downloaded from the SEDRIS Organization at http://www.sedris.org/or the ISO/IEC Information Technology Task Force (ITTF) at http://isotc.iso.org/livelink/livelink/fetch/2000/2489/Ittf_Home/ITTF.htm. Copies may also be purchased from the International Organization for Standardization at http://www.iso.org/ or from the InterNational Committee for Information Technology Standards (INCITS) at http://www.incits.org/ or by contacting the INCITS Secretariat, c/o Information Technology Industry Council, 1250 Eye Street NW, Suite 200, Washington, DC 20005, Phone 202-737-8888, Fax 202-638-4922, and Email incits@itic.org.

ISO/IEC 18026 defines the conceptual model and the methodologies that allow the description, and transformation or conversion, of geometric properties within or among spatial reference frames. The Spatial Reference Model (SRM) supports unambiguous specification of the positions, directions, distances, and times associated with spatial information. It also defines algorithms for precise transformation of positions, directions and distances among different spatial reference frames. ISO/IEC 18026 is part of the Synthetic Environmental Data Representation and Interchange Specification (SEDRIS) suite of international standards.

Custodians:
Army – AC
Navy – EC
Air Force – 05
DISA – DC2

Adopting Activity:
OSD – DMS
