COMMERCIAL ITEM DESCRIPTION

CIRCUIT BREAKER, AUTOMOTIVE TYPE

The General Services Administration has authorized the use of this commercial item description (CID).

Abstract. This CID covers the general requirements for an automotive type circuit breaker. Circuit breakers covered by this CID are intended for commercial/industrial applications.

Part or Identifying Number (PIN). The PIN for the CID shall be as shown in the following example:

Salient characteristics.

Design and construction. Circuit breakers supplied to this CID shall be as specified herein (see figure 1) and shall meet the requirements of SAE J553 for automotive type circuit breakers

Ampere rating. The ampere rating shall be as specified in table I.

Voltage rating. The voltage rating shall be 12 V dc.

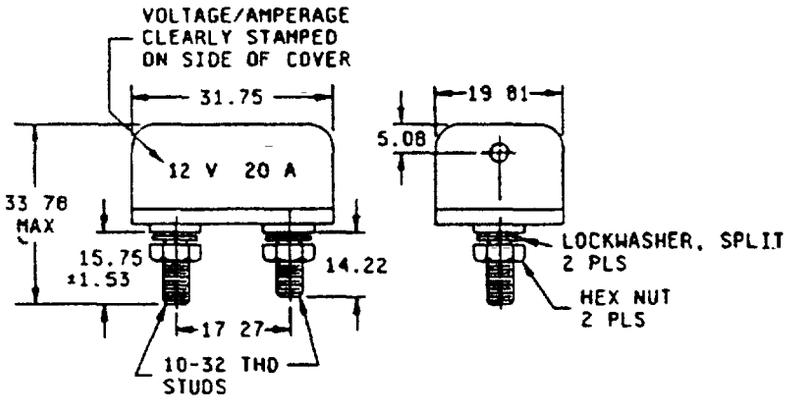

Termination style. The termination style shall be 10-32 threaded studs and shall be supplied with lock washers and hex nuts (see figure 1).

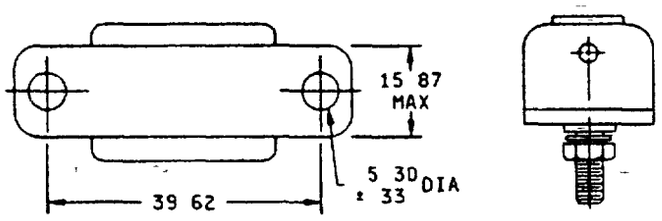

Marking. Circuit breakers supplied to this CID shall be marked with the manufacturer's standard commercial PIN.

Regulatory requirements This section is not applicable to this CID.

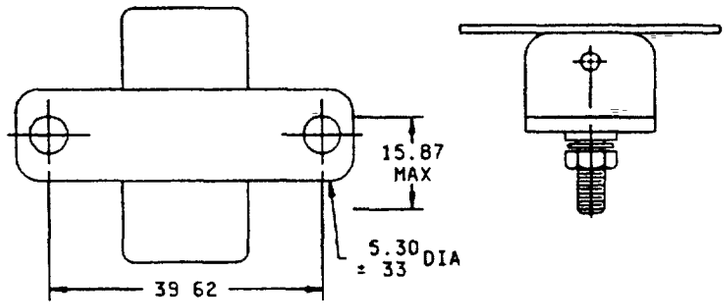

DISTRIBUTION STATEMENT A Approved for public release; distribution is unlimited.

MOUNTING BRACKET A

MOUNTING BRACKET B

mm	Inches	mm	Inches
.33	.012	15.87	.625
1.53	.060	17.27	.680
5.08	.200	19.81	.780
5.30	.208	31.75	1.250
14.22	.559	33.78	1.330
15.75	.620	39.62	1.560

NOTES

1. Dimensions are in millimeters
2. Unless otherwise specified, tolerance is ±0 13 millimeter (.005 inch)
3. The US government preferred system of measurement is the metric SI system. However, this item was originally designed using inch-pound units of measurement In the event of conflict between the metric and inch-pound units, the inch-pound units shall take precedence.

Quality assurance provisions.

Responsibility for inspection Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection, examination, and test requirements specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any other facilities suitable for the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections, examinations, or tests set forth in this description where such inspections, examinations, and tests are deemed necessary to assure supplies and services conform to prescribed requirements

Contractor certification statement The contractor shall certify and maintain objective quality evidence that the product offered meets the requirements of this CID, and that the product conforms to the producer's own drawings, specifications, standards, quality assurances practices, and is the same as the product provided as a bid sample. The Government reserves the right to require proof of such conformance prior to the first delivery and thereafter as may be otherwise provided for under the provisions of the contract

Certificate of compliance A certificate of compliance shall accompany all automotive type circuit breakers supplied to this CID The letter of certification shall state that the automotive circuit breaker meets all the requirements of SAE J553 and all the requirements of this CID.

Packaging.

Preservation, packaging, packing, labeling, and marking. Preservation, packaging, packing, labeling, and marking shall be as specified in the contract or purchase order.

Notes This section contains relevant information which is useful to buyers, users, and suppliers in the process of acquiring the item, but is not mandatory.

Referenced document. The following document, of the issue in effect on date of invitation for bids for request for proposal, form a part of this CID to the extent specified herein
