NOTES:
1. Dimensions are in millimeters.
2. Inch equivalents are for information only.

FIGURE 1. Protective store cover receptacle - Continued.

REQUIREMENTS:

Dimensions and configurations: See figure 1.
This protective cover mates with MIL-DTL-83538/1.
Part or Identifying Number (PIN) example: M83538/7-1.

QUALIFICATION: Protective covers shall be in accordance with the qualification requirements of MIL-DTL-83538. The following details and exceptions shall apply:

Group A: Visual and mechanical examination (100% inspection).

Group B: Not applicable.

Qualification and group C: Two MIL-DTL-83538/7 protective covers with mating connectors shall be required for stand alone qualification. However, if a manufacturer is in the process of qualifying MIL-DTL-83538/1 concurrently with MIL-DTL-83538/7, then one protective cover and mating connector shall be required.

Manufacturers that are qualifying this protective cover as a stand alone accessory shall conduct the following sequence of tests:

Visual and mechanical examination
Salt spray
Humidity
Sand and dust
Coupling torque
Post test examination.

Check the source to verify that this is the current version before use.

Manufacturers that are qualifying the MIL-DTL-83538/1 concurrently with the MIL-DTL-83538/7, shall conduct the following sequence of tests:

Visual and mechanical examination
Salt spray
Coupling torque
Post test examination.

All testing shall be in accordance with MIL-DTL-83538.

Changes from previous issue. The margins of this specification are marked with vertical lines to indicate where changes from the previous issue were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous issue.
