COMMERCIAL ITEM DESCRIPTION

BOTTLE, SCREW CAP,
(Glass, Wide Mouth, Round)

The General Services Administration has authorized the use of this commercial item description in preference to Type II Style I Bottles, Screw Cap, Glass, of Federal Specification NNN-B-1505A.

This commercial item description covers a round, wide mouth, screw-neck, glass bottle with a screw cap closure suitable for general medical and laboratory use.

Salient characteristics:

The bottle assembly shall consist of a round, wide mouth, screw-neck, glass bottle with a plastic screw cap closure.

The bottle shall be made of soda lime glass conforming to the requirements for Type II of ASTM E-438. It shall be a conventional cylindrical bottle with exterior threaded finish to accommodate a screw cap cover. A straight section on the top of the bottle shall be permitted between the take-out bead and the start of the shoulder. The dimensions of the bottle shall conform to the following:

Capacity	Maximum height	Maximum O.D.	Minimum Mouth I.D.
84 ml	2.8 inch (71.6 mm)	2.2 inch (56.6 mm)	1.38 inch (35.1 mm)
130 ml	4.1 inch (103.6 mm)	2.1 inch (52.6 mm)	1.38 inch (35.1 mm)
210 ml	5.7 inch (144.6 mm)	2.2 inch (56.6 mm)	1.38 inch (35.1 mm)

The screw cap closure shall be fabricated of an autoclavable, impact-resistant plastic with an interior thread compatible with the threaded portion of the bottle.

The screw cap liner shall be secured to the inside of the screw cap in such a manner that it will not fall out, or is not off center when the screw cap is secured to the bottle. Each liner shall be supplied with a facing of sufficient thickness and resilience to make a leak-proof seal with the bottle when the screw cap is applied handtight. The adhesives and materials used for the liner and facing shall be autoclavable and water-resistant. As an alternate, the screw cap may be a one-piece linerless polypropylene which shall fit the bottle securely and prevent leakage.

The bottle, screw cap, liner and adhesives shall be autoclavable.

The bottle and screw cap shall be supplied assembled.

Reference standard. Where a standard is referenced herein, the issue of that standard in effect on the date of solicitation shall be used to determine compliance with stated requirements.

Workmanship. The bottle, screw cap and liner shall be free from defects whichdetract from their appearance or impair their serviceability.

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Unit. Package (PG). One package containing twelve bottles with screw caps, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

The following National Stock Numbers are covered by this document:

6640-00-408-9150	84 ml capacity
6640-00-408-9185	130 ml capacity
6640-00-408-9195	210 ml capacity

Ordering data: (Intermediate/exterior package quantities, and labeling and marking must be specified in the contract and/or order).
