COMMERCIAL ITEM DESCRIPTION

JAR, SURGICAL NEEDLE

The General Services Administration has authorized the use of this commercial item description in preference to Federal Specification RR-J-170.

This Commercial Item Description covers a corrosion-resisting steel jar and cover designed to hold sterile hypodermic needles, alcohol sponges, cotton balls, vaseline gauze, and safety and common pins for use in military medical treatment facilities.

Salient characteristics:

Shall be a steel jar and cover designed to hold sterile hypodermic needles, alcohol sponges, cotton balls, vaseline gauze, and safety and common pins. The design shall facilitate easy cleaning.

Jar shall have an outside diameter of approximately 3-1/8 inches with a minimum height of 2-3/16 inches.

Jar cover shall be approximately 3/4 inch in height with either a square or rounded strap handle approximately 9/16 inch high. Finger clearance shall be adequate.

Handle shall be securely spotwelded to the cover top. Spotwelding shall be thorough, sound, and free from pits, flashes, and discoloration.

Jar and cover shall be formed seamlessly from one single piece of corrosion-resisting steel, American Iron and Steel Institute (AISI) 300 series, with a thickness of not less than 0.025 inch (No. 24, United States standard gage), which shall not be reduced below 0.024 inch in thickness at any point in the finished jar. Strap handle shall be a minimum of 0.031 inch thick (No. 22, United States standard gage).

The cover shall fit snugly, but not tightly, over the body, so that the cover may be removed with one hand without the need for holding the jar in the other hand.

The jar shall not rock while resting on a flat surface.

Jar, cover, and handle shall be free of sharp edges, dents, cracks, tears, ripples, or deformities.

Jar and cover shall have a commercial No. 4 finish or better.

Workmanship. The surgical needle jar shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One jar, of the size specified, constitutes one unit.

FSC 6530

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Contractor certification. The contractor shall certify that the product offered mee the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Governmen reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling an marking shall be as specified in the contract and/or order.

The following National Stock Number is covered by this document:

6530-00-782-7400

Ordering data. Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order.
