COMMERCIAL ITEM DESCRIPTION

COVER GLASS, MICROSCOPE SLIDE

The General Services Administration has authorized the use of this commercial item description in preference to Type II Thickness No. 1 Cover Glasses of Federal Specification NNN-C-1434C.

This commercial item description covers microscope slide cover glasses for microscopic observation.

Salient characteristics:

The cover glasses shall be transparent and colorless.

The side lengths shall be as specified with a tolerance of ± 1.0 mm.

The thickness shall be 0.13 mm to 0.17 mm, and the thickness of a single cover glass shall not vary more than 0.01 mm when measured with a standard cover glass gauge or micrometer thickness gauge.

No color shall be visible along the edges of or through superimposed cover glasses when subjected to a standard commercial test for solubility using a phenolphthalein solution or equivalent.

Cover glasses shall be capable of conforming to a 4-1/2 inch diameter mandrel with the largest dimension of the cover glass at right angle to the axis of the mandrel. Each cover glass shall be bent one time only.

A stack of 100 cover glasses shall not compress more than 1.42 mm under a uniformly applied weight of 100 grams.

The unit package shall be a plastic container of suitable size to contain a one-ounce quantity of cover glasses, with a hinged lid and snap-type closure. The cover glasses shall be held in an upright position permitting ready dispensing when the container is opened. The interior of the container shall be cushioned with a lint-free material to insure protection of cover glasses and to insure against spilling when the container is opened. Container closure shall be adequate to prevent spilling of contents under normal handling. As an alternate to the hinged container, the unit package shall be a container of suitable size with a molded plastic bottom section and a top fabricated of plastic, fiberboard, or heavy chipboard.

Workmanship. The cover glasses and container shall be free from defects which detract from their appearance or impair their serviceability.

Unit. Package (PG). One package containing a quantity of cover glasses of one size and thickness, weighing a minimum of one-ounce, constitute one unit.

FSC 6640

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Inspections and tests. Inspections and tests shall be conducted in accordance with commercial practice to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for inspection and tests. Sampling for inspections and tests shall be conducted in accordance with commercial practice. The unit of product for inspection and test purposes shall be one one-ounce unit package.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

The following National Stock Numbers are covered by this document:

6640-00-618-0066	Size 22 x 22 mm, Square, 1-oz
6640-00-618-0067	Size 22 x 40 mm, Rectangular, 1-oz

Ordering data (Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order).

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
