COMMERCIAL ITEM DESCRIPTION

HANGER, X-RAY FILM

The General Services Administration has authorized the use of this commercial item description.

This Commercial Item Description covers a hanger for processing intra-oral type dental x-ray films in developing and drying procedures.

Salient characteristics:

Shall be a dental x-ray film processing hanger capable of accepting and holding securely a single, intra-oral type film.

Hanger shall attach securely to the processing tank during the processing cycle in a vertical position.

Metal parts of the hanger shall be corrosion-resisting steel, American Iron and Steel Institute (AISI) 300 series.

Hanger shall have a suitable plastic identification tag which shall accept pen and pencil marks and which will not show any deterioration when subjected to the processing chemicals.

Overall length of the hanger shall be approximately 1-3/4 inches or 2-1/4 inches, with an approximate width of 3/8 inch.

Hanger metal parts shall have a #4 commercial finish or better, shall be passivated or electropolished after fabrication, and shall be free from burrs or sharp edges.

Workmanship. The dental x-ray film hanger shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing twelve hangers, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

The following National Stock Number is covered by this document:

6525-01-060-0610

Ordering data. Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order.
