COMMERCIAL ITEM DESCRIPTION

WHEEL, ABRASIVE, (Dental)

The General Services Administration has authorized the use of this commercial item description in preference to Federal Specification GG-W-258.

This commercial item description covers two grits of ceramic bonded silicon carbide wheels for attachment to standard dental stone lathe chucks suitable for dental laboratory use.

Medium grit
Coarse grit

Salient characteristics:

The grinding wheel shall be composed of silicon carbide crystals free of extraneous materials, fused with a ceramic binder. The medium grit wheel shall contain 180 grit silicon carbide and the coarse grit wheel shall contain 100 grit silicon carbide. The wheel shall be entirely suitable for use with grinding and polishing machine chucks (NSN 6520-00-539-0350 and 6520-00-539-0550) rotating at 3600 revolutions per minute. The wheels of both grits shall be square edge, 2 ± 1/16 inch in diameter and 1/4 ± 1/32 inch in thickness. The wheel shall be reversible and have a drilled metal hub suitable for the purpose intended. The metal hub shall have a hole diameter of .250 + .009, -.000 inch and shall serve as a bushing. It shall be flush with the parallel side faces of the ceramic wheel. Each wheel shall be marked in a plain manner with the manufacturer's name or trademark, diameter, thickness, bore, grit size and maximum operating speed.

Workmanship. The wheel shall be symmetrically made with chuck holes truly centered and free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One wheel of the grit as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

AMSC N/A FSC 6520

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Tests. Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for inspection. Sampling for inspection shall be conducted in accordance with MIL-STD-105. Where feasible, the same sample shall be used for the determination of two or more inspection characteristics. The unit of product for inspection purposes shall be one wheel. Unless otherwise specified, sampling for examination shall be conducted at inspection level II, AQL 2.5, and sampling for tests (when applicable) shall be conducted at inspection level S-1, AQL 1.0.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

The following National Stock Numbers are covered by this document:

NSN	Item Identification
6520-00-568-9000	WHEEL, ABRASIVE, Silicon Carbide, Coarse, Square Edge, 2 by 1/4 inches.
6520-00-569-0000	WHEEL, ABRASIVE, Silicon Carbide, Medium, Square Edge, 2 by 1/4 inches.

Ordering data. Intermediate/exterior package quantities, labeling, and marking must be as specified in the contract and/or order.
