COMMERCIAL ITEM DESCRIPTION

PROP, MOUTH, DENTAL, RUBBER

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers two dental mouth props suitable for supporting and stabilizing the mandible to accommodate various dental procedures. The mouth props shall be furnished in the following size numbers, as specified.

Pedodontic 02, Adult 10

Salient characteristics:

The prop shall be made of soft, polymer silicone rubber, molded over non-distortable stainless steel inserts. The prop shall conform to the design and dimensions shown in Figure 1. The prop shall be designed with flanges to prevent sideways slippage. The prop shall withstand repeated autoclaving at temperatures up to 500^{0} F without showing any deterioration, such as stickiness or brittleness. The prop shall be wedge shaped, having deep corrugations to occlude the teeth so as to provide secure stabilization in the mouth and shall have a finger channel for easy insertion. The prop shall have a smooth finish and shall be of beige color.

The prop shall be marked with manufacturer's name and applicable commercial item name and size number. Each unit of issue shall include a statement that mouth prop is steam autoclavable up to 500^{0} F.

Workmanship. The mouth prop shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One dental mouth prop, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Sampling for inspection. Sampling for inspection shall be conducted in accordance with MIL-STD-105. Where feasible, the same sample shall be used for the determination of two or more inspection characteristics. The unit of product for inspection purposes shall be one mouth prop. Unless otherwise specified, sampling for examination shall be conducted at inspection level II, AQL 2.5, and sampling for tests (when applicable) shall be conducted at inspection level S-1, AQL 1.0.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
