COMMERCIAL ITEM DESCRIPTION

CLOTH, SQUEEZE, DENTAL

The General Services Administration has authorized the use of this commercial item description in preference to Interim Federal Specification DDD-C-00475B (DSA-DM).

This commercial item description covers a dental squeeze cloth suitable for expressing mercury from amalgam filling material and hold the amalgam during the filling procedure.

Salient characteristics:

The squeeze cloth shall be made of a bleached cotton broadcloth or bleached cotton percale or a cotton/polyester fabric of high commercial quality and shall be suitable in all respects for the intended purpose. The squeeze cloth shall be furnished in a square shape measuring 2-13/16 ± 1/16 inch square, and shall conform to the physical properties listed in table I. Threads shall run diagonally and the cloth shall be die-cut on a 45 ± 15 degree angle. Cloth shall be suitable for expressing mercury from amalgam and holding the amalgam without leaving shreds of foreign matter in the filling mass. The cotton broadcloth, cotton percale or cotton/polyester shall be bleached and desized. The edges of the squeeze cloth (end item) shall be clean-cut to prevent raveling. The starch and protein content including chloroform-soluble material shall not exceed 2.0 percent when tested as specified in test section under nonfibrous material.

TABLE I. Physical properties

	Cotton Broadcloth	Cotton Percale	Cotton Polyester
Weight (ounces, minimum)			
per square yard	2.75	2.75	2.75
per hundred cloths	1.35	1.35	1.35
Breaking Strength (pounds, minimum)			
Warp	64	34.6	34.6
Filling	35	34.6	34.6
Threads per inch (minimum)			
Warp	95	71	71
Filling	53	71	71

AMSC N/A FSC 6520

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Tests.

Physical properties. The physical properties referenced in the salient characteristics shall be determined in accordance with FED-STD-191, using the following methods contained herein.

TABLE II. Test methods.

Physical property	Test Method Number
Identification of cotton	1200
Polyester content of fiber mixture	2535
Weight	5041
Thread per inch	5050
Breaking strength	5100
Non-fibrous material	2611

Workmanship. The squeeze cloth shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing one hundred squeeze cloths, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspections. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item. Inspection shall be conducted to determine compliance with specification requirements.

Sampling for inspection. Sampling for inspection shall be conducted in accordance with MIL-STD-105. Where feasible, the same sample shall be used for the determination of two or more inspection characteristics. The unit of product for inspection purposes shall be one package of squeeze cloths. Unless otherwise specified, sampling for examination shall be conducted at inspection level II, AQL 2.5, and sampling for tests (when applicable) shall be conducted at inspection level S-1, AQL 1.0.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

Stock Number	Item Identification
6520-00-516-7150	CLOTH, SQUEEZE, DENTAL

Ordering data. Intermediate/exterior package quantities, labeling, and marking must be as specified in the contract and/or order.
