COMMERCIAL ITEM DESCRIPTION

WAX, DENTAL (Utility)

The General Services Administration has authorized the use of this commercial item description in preference to Interim Federal Specification U-W-00156a (DSA-DM).

This commercial item description covers dental utility wax suitable for use in dental prosthetic procedures.

Salient characteristics:

The utility wax shall be suitable for use in dental prosthetic procedures such as building up impression trays, post damming, and sealing and boxing of an impression.

The wax shall be furnished in packages having a minimum of 60 ropes and weighing a minimum of 300 grams per package. The ropes shall be 3/16 inch nominal in diameter and shall be a minimum of 10-3/4 inches long. Layers of wax shall be adequately separated to insure against blocking. The wax shall be dark red in color, and shall be furnished in packages containing a minimum weight of 300 grams. The melting point of the wax shall be no less than 68.0 degrees Centigrade (^{o}C). The flow of the wax (ADA method) shall be no less tnan 65.0 percent and no more than 86.0 percent at 37.5 $\pm$ 1.0^{o}C. The wax shall be pliable at a temperature of 70.0 to 75.0 degrees Fahrenheit (^{o}F). The wax shall be tacky at a temperature of 70.0^{o} to 75.0^{o}F and shall have sufficient adhesive qualities for building-up purposes.

The utility wax shall be given a practical performance test to determine pliability, tackiness, and adhesiveness property requirements.

Material. Utility wax shall be a uniform mixture of waxes and other ingredients, such as resins, combined in proportions that will result in a material possessing the physical properties specified herein.

Workmanship. The utility wax shall be clean and free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package as described above, constitutes one unit of issue.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Sampling for inspection. Sampling for inspection shall be conducted in accordance with MIL-STD-105. Where feasible, the same sample shall be used for the determination of two or more test characteristics. The unit of product for test purposes shall be one package of wax. Unless otherwise specified, sampling for examination shall be conducted at inspection level II, AQL 2.5, and sampling for tests shall be conducted in duplicate on wax from a unit package for each lot or batch number. Failure of the averaged result for any test shall be cause for rejection of the lot or batch.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.
