COMMERCIAL ITEM DESCRIPTION

FLASK, BOILING, Florence

The General Services Administration has authorized the use of this commercial item description in preference to Federal Specification NNN-F-240.

This commercial item description covers a type of boiling flask used in laboratory procedures.

Salient characteristics:

The boiling flask shall be fabricated from borosilicate glass in conformance with Type I, class A of ASTM-E-438. Shall be one piece construction having a long neck with a tooled or beaded mouth perpendicular to a rounded body with a flat bottom. Shall have a nominal capacity of 1000 milliliters. Flasks shall be uniform, symmetrical and shall have none of the following which will be considered defects.

Cracks
Scratches
Discoloration or distortion
Dirt or grease
Seams
Internal foreign matter not easily removed using normal laboratory procedures.

The flasks shall be marked permanently and legibly with the manufacturer's name or registered trademark, approximate capacity and with a roughened or matte area suitable for laboratory marking.

Workmanship. The flask shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One flask, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein.

AMSC N/A FSC 6640

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspections. Inspections, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Sampling for inspection. Sampling for inspection shall be conducted in accordance with MIL-STD-105. Where feasible, the same shall be used for the determination of two or more inspection characteristics. Unless otherwise specified, sampling for examination shall be conducted at inspection level S-2, AQL 1.0, and sampling for tests (when applicable shall be conducted at inspection level S-1, AQL 1.0.

Tests. Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder.

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
