STANDARDS

FEDERAL

FED-STD-142 - Parenteral Preparations.

MILITARY

MIL-STD-105 - Sampling Procedures and Tables for Inspection by Attributes.
MIL-STD-129 - Marking for Shipment and Storage.

(Copies of specifications and standards required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless otherwise indicated, the issue in effect on date of invitation for bids or request for proposals shall apply.

U. S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, FOOD AND DRUG ADMINISTRATION (FDA)

Federal Food, Drug, and Cosmetic Act and Regulations Promulgated Thereunder.

(Application for copies should be addressed to the Food and Drug Administration, Washington, DC 20204.)

U. S. PHARMACOPEIAL CONVENTION, INC.

The United States Pharmacopeia (USP).

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

The National Formulary (NF).

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

3. REQUIREMENTS

3.1 Material. Shall be Thiopental Sodium for Injection, USP, with separate Water for Injection, Sterile, USP.

Source: https://assist.dla.mil -- Downloaded: 202610-21T11:16Z
Check the source to verify that this is the current version before use.

3.1.1 Thiopental Sodium for Injection, USP. The Thiopental Sodium for Injection, USP, shall be in accordance with all applicable requirements of FED-STD-142, and as specified herein.

S2. Classification. Shall be type IV, class 1, style, A.

S5.2.1 The following is added to this paragraph:

Shall contain 0.5 Gram of thiopental sodium per immediate container within the applicable assay limits.

All ingredients used in the manufacture of the finished product shall comply with S5.1 of FED-STD-142.

3.1.2 Water for Injection, Sterile, USP. The Water for Injection, Sterile, USP, shall be in accordance with all applicable requirements of FED-STD-142, and as specified herein.

S2. Classification. Shall be type I, class 1.

S6.3 The immediate container shall contain 20 ml plus the required excess.

3.2 Expiration dating period. The expiration dating period shall be 24 months.

4. QUALITY ASSURANCE PROVISIONS

4.1 Supplier responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of the inspection requirements specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Check the source to verify that this is the currentversion before use.

4.1.1 Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government, upon the Government's request, at any time, or from time to time, during the performance of the contract and, (i) as to any expiration dated item, for the expiration dating period specified by the contractor for such item, or such longer period as may be required by regulation of any federal agency; or (ii) as to non-dated items, for not less than 3 years after delivery of the item to the Government.

4.1.2 No company supplying any ingredient(s) to the contractor will be considered an acceptable facility for the performance of any inspection requirements specified herein.

4.2 Sampling. The sampling as shown in FED-STD-142 shall be applicable.

4.3 Packaging inspection. The inspection of the intermediate package, packing and marking for shipment and storage shall be in accordance with quality assurance provisions of the applicable container specification and the marking requirements of MIL-STD-129.

4.4 Labeling inspection. Sampling shall be in accordance with MIL-STD-105 and the unit of product shall be the unit of issue. The inspection lot shall be the number of units of issue of each batch, lot, control number, etc., offered for inspection at one time. The inspection level for labeling shall be S-2 and the acceptance number shall be zero.

4.5 Tests. Tests shall be performed to determine compliance with all requirements of this document and all referenced documents.

5. PACKAGING

5.1 Packaging requirements. The requirements for packaging shall be in accordance with all applicable requirements of PPP-C-186, and as specified herein.

5.2 Packaging. Packaging shall be level A or C, as specified (see 6.1).

5.2.1 Unit of issue. One box containing twenty-five (25) individual boxes, as specified, constitutes one unit of issue.

Check the source to verify that this is the currentversion before use.

5.2.2 Level A.

5.2.2.1 Immediate container. The immediate container for the dry powder mixture (Thiopental Sodium for Injection, USP) and diluent (Water for Injection, Sterile, USP) shall be packaged in separate commercially available containers considered acceptable by the Food and Drug Administration (FDA) for the product contained therein and shall be of such compatibility that neither the contents nor the container are altered in any way by each other. Both containers shall be packaged together in accordance with commercial practice.

5.2.2.2 Individual box. The individual box, containing one vial of the powder and one vial of diluent shall be constructed in accordance with PPP-B-566 or PPP-B-676 except that commercial colors are acceptable. The box shall be designed with suitable interior fittings or shall contain sufficient cushioning material to insure against shifting of or damage to the contents. Closure shall be adequate to prevent spilling of contents under normal handling.

5.2.2.3 Unit package. Twenty-five (25) individual boxes shall be packaged in a box conforming to PPP-B-566, PPP-B-676 or PPP-B-636, type CF, class domestic. Closure shall be as specified in appendix of applicable box specification.

5.2.3 Level C. Units shall be packaged in standard commercial containers of the size and kind commonly used, which will afford the degree of protection required for shipment and use of the product for its intended purpose.

5.3 Packing. Packing shall be level A, B or C, as specified (see 6.1).

5.3.1 Level A. Twelve (12) unit packages shall be packed in an exterior container conforming to PPP-B-636, type CF, class weather-resistant. Closure waterproofing and banding shall be as specified in appendix of box specification.

5.3.2 Level B. Twelve (12) unit packages shall be packed in an exterior container conforming to PPP-B-636, type CF, class domestic. Closure shall be as specified in appendix of box specification.

5.3.3 Level C. The subject commodity shall be packed in substantial commercial containers of the type, size, and kind commonly used for the purpose, so constructed as to insure acceptance and safe delivery by common or other carriers, at the lowest rate, to point of delivery called for in the contract or purchase order.

5.4 Marking.

5.4.1 Labeling. Labeling shall be in accordance with the requirements of the Federal Food, Drug and Cosmetic Act and shall include the information required below:

5.4.1.1 Immediate container. Each immediate container label shall bear the following information:

(a) label information in accordance with commercial practice.
(b) the expiration date.

5.4.1.2 Unit package. Each unit package label shall bear the following information:

(a) label information in accordance with commercial practice.
(b) the National Stock Number.

NOTES: (1) The National Stock Number shall not be preceded by any prefix.
(2) Strip labeling may be used.
(3) Label adhesion test shall not apply.

5.4.2 Exterior container. Exterior container shall be marked in accordance with MIL-STD-129. Lot (control) number and type II shelf life markings as specified in MIL-STD-129 shall be shown. Marking shall include the legend: "DO NOT PERMIT TO FREEZE".

6. NOTES

6.1 Ordering data. Procurement documents should specify the following:

(a) Title, number and date of this specification.
(b) National Stock Number.
(c) Selection of applicable levels of packaging and packing (see 5.2 and 5.3).

6.2 This specification covers the following item:

National Stock Number	Item Identification
6505-00-117-9171	THIOPENTAL SODIUM FOR INJECTION, USP, 0.5 Gram, 25s

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

INSTRUCTIONS: This form is provided to solicit beneficial comments which may improve this document and enhance its use. DoD contractors, government activities, manufacturers, vendors, or other prospective users of the document are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity. A response will be provided to the submitter, when name and address is provided, within 30 days indicating that the 1426 was received and when any appropriate action on it will be completed.
NOTE: This form shall not be used to submit requests for waivers, deviations or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.

DOCUMENT IDENTIFIER *(Number)* AND TITLE
