FEDERAL SPECIFICATION

MOLASSES, SUGARCANE

This amendment, which forms a part of Federal Specification JJJ-M-576E, dated December 16, 1975, was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

PAGE 3

Add new paragraph as follows:

"3.2.1 Processing. All molasses types specified herein shall be heat processed (pasteurized) according to good commercial practice. Either hot fill or pasteurization in the container is acceptable. If hot fill is used, the can shall be inverted after closure to sanitize the lid. (NOTE: Heating the molasses to a center temperature of not less than 180°F (82°C) for five minutes has been found adequate.)"

PAGE 6

Add new paragraph as follows:

"4.3.12 Examination of heat processing (pasteurization). Examination shall be made to determine compliance with 3.2.1. Time and temperature records shall be maintained. Nonconformance to one or more requirements reflected by actual examination or by records shall be cause for rejection of the involved quantity of product."

PAGE 7

6.1, subparagraph (d): Delete in its entirety and substitute the following

"(d) Levels of packaging and packing required (see 5.1 and 5.2)"

6.1: Add the following subparagraph

"(f) Type of package and quantity per package required (see 5.1)."
