FEDERAL SPECIFICATION

PEAS, DRY, SPLIT

This specification was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

1. SCOPE AND CLASSIFICATION

1.1 Scope. This specification covers the requirements for dry split peas for use by all Federal agencies.

1.2 Classification.

1.2.1 Classes. Dry split peas covered by this specification shall be of the following classes, as specified (see 6.1):

Class I. - Green
Class II. - Yellow

1.2.2 Grades. Dry split peas covered by this specification shall be of the following grades, as specified (see 6.1):

U.S. No. 1
U.S. No. 2
U.S. No. 3

2. APPLICABLE DOCUMENTS

2.1 The following documents of the issue in effect on date of invitation for bids or request for proposal, form a part of this specification to the extent specified herein:

FSC 8915

LAWS AND REGULATIONS

U.S. Department of Health, Education, and Welfare

Federal Food, Drug, and Cosmetic Act and Regulations Promulgated Thereunder Part 128 of the Code of Federal Regulations, Title 21

(Copies may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.)

U.S. Department of Agriculture

United States Standards for Split Peas

United States Standards for Condition of Food Containers

(Application for copies should be addressed to the Information Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, DC 20250).

2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless a specific issue is identified, the issue in effect on date of invitation for bids or request for proposal shall apply.

National Motor Freight Traffic Association, Inc., Agent

National Motor Freight Classification

(Application for copies should be addressed to the American Trucking Associations, Inc., Traffic Department, 1616 P Street, N.W., Washington, DC 20036.)

Uniform Classification Committee, Agent

Uniform Freight Classification

(Application for copies should be addressed to the Uniform Classification Committee, Room 1106, 222 South Riverside Plaza, Chicago, IL 60606.)

3. REQUIREMENTS

3.1 Material. Dry split peas shall conform in every respect to the requirements of the respective class and grade as defined in the United States Standards for Split Peas.

3.2 Federal Food, Drug, and Cosmetic Act. All deliveries shall conform in every respect to the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Check the source to verify that this is the current version before use.

3.3 Workmanship. For Civil agencies the product shall be prepared in accordance with part 128 of the Code of Federal Regulations, Title 21, Human Foods; Current Good Manufacturing Practices (Sanitation) in Manufacturing, Processing, Packing or Holding. For Military agencies, the product shall be processed in establishments meeting the requirements of MIL-STD-668.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection. Unless otherwise specified in the the contract, or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the contractor may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.2 Pre-acceptance inspection (plant sanitation inspection).

4.2.1 For Civil agencies. When specified (see 6.1), inspection of plants producing the product will be conducted upon request of the contracting officer to the appropriate Government inspection agency. Award of contracts will be limited to establishments known to maintain proper sanitary conditions or which have received prior sanitary approval recommended by the inspection agency (see 3.3).

4.2.2 For Military agencies. The product shall be rejected if produced in plants not meeting the requirements of 3.3.

4.3 Acceptance inspection.

4.3.1 Condition inspection of containers. When inspection of product for quality and condition is performed by the U.S. Department of Agriculture, the United States Standards for Condition of Food Containers shall apply. (For applicable criteria governing inspection of containers for the Military, see 4.3.5).

4.3.2 Sampling for inspection. Sampling for inspection shall be performed in accordance with MIL-STD-105, except as otherwise indicated hereinafter.

4.3.3 Component and material inspection. In accordance with 4.1, components and material shall be inspected in accordance with the requirements of referenced specifications, drawings and standards unless otherwise excluded, amended, modified or qualified in this specification or applicable purchase document.

4.3.4 Examination of end item. Classification of defects found during examination shall be in accordance with table II and 4.3.5 through 4.3.10. The inspection level, sample unit, and expression of lot size shall be shown in table I. The acceptance quality level (AQL) for table II shall be expressed as percent defective.

TABLE I. Sampling plans and AQLs

Table	Inspection level	Sample unit	Lot size expressed in	AQLs Minor
II	S-3	Primary container	Primary containers	2.5

TABLE II. Examination for net weight 1/

Category	Defects
Minor	
201	Net weight more than 5 percent under specified weight (applicable when containers are required to have a net weight of 1 pound (0.45 kg) or less). 2/
202	Net weight more than 2 percent under specified weight (applicable when containers are required to have a net weight of more than 1 pound (0.45 kg) but not more than 10 pounds (4.5 kg)). 3/
203	Net weight more than 1 percent under specified weight (applicable when containers are required to have a net weight of more than 10 pounds (4.5 kg)). 4/

1/ Lot shall be rejected if sample data indicate lot average net weight is less than specified net weight.
2/ Weigh to nearest 1/8 ounce (gram).
3/ Weigh to nearest 1/4 ounce (gram).
4/ Weigh to nearest 1/4 pound (gram).

4.3.5 External examination for condition of primary containers. Primary containers shall be examined in accordance with the criteria contained in the United States Standards for Condition of Food Containers.

4.3.6 Determination of conformance to grade. Conformance to grade requirements shall be in accordance with the United States Standards for Split Peas. Nonconformance to grade requirements shall be cause for rejection of the lot.

4.3.7 Examination of multiwall paper shipping sacks. When multiwall paper shipping sacks are required to be in accordance with UU-S-43, examination of the filled and sealed shipping sack shall be in accordance with external examinations of the end item (except as pertains to count) as detailed in said specification. The sample size shall be as indicated by inspection level S-2 and the acceptable quality level for defects shall be 4.0 expressed as defects per hundred units for each table of examination.

4.3.8 Examination of waterproof case liners. The filled and closed case liners shall be examined in accordance with the quality assurance provisions in the appendix of MIL-L-10547.

4.3.9 Examination of fiberboard containers. The filled and closed fiberboard containers shall be examined in accordance with the quality assurance provisions in the appendix of PPP-B-636. In addition, the following defects shall be included in the examination: Major: Markings missing, incorrect, or illegible; Major: Protective pad and tape, when required, missing, not as specified, or not completely covering metal stitches; Minor: Number of contents not as specified. For level C shipping containers, only the defect pertinent to marking shall apply. Intermediate containers and shipping containers shall be examined as separate lots, respectively.

4.3.10 Examination of unit loads (Military agencies). Unit loads shall be examined in accordance with the quality assurance provisions of MIL-L-35078 and the applicable specification sheet for the type and class of load specified (see 6.1).

4.4 Examination and test methods. Examination and test procedures which differ from those specified herein, unless otherwise excepted, may be used by the supplier if they provide a quality assurance equivalent to that specified. If the contracting officer determines that such procedures and controls do not provide, as a minimum, such quality assurance, the supplier will use the procedures set forth herein. In case of dispute, as to examination or test results, the procedures specified herein will govern.

5. PREPARATION FOR DELIVERY

5.1 Packaging, Military agencies. One pound (0.45 kg) of dry split peas shall be packaged in a carton normally used for the product.

5.2 Packing. Dry split peas shall be packed in accordance with 5.2.1 or 5.2.2, as applicable.

5.2.1 Civil agencies, level B. Twenty-five (11.3 kg) or 100 pounds (45.4 kg) as specified (see 6.1) of dry split peas shall be packed in a multiwall paper shipping sack in accordance with the level B requirements of UU-S-48 except for 25 pounds (11.3 kg) the sack may be 1 or 1X.

Check the source to verify that this is the current version before use.

5.2.2 Military agencies, levels A, B and C. The dry split peas shall be packed in accordance with level A, B, or C, as specified (see 6.1).

5.2.2.1 Level A. Forty-eight one pound (0.45 kg) packages of dry split peas shall be packed into a snug-fitting intermediate container, constructed and closed in accordance with style CF or SF, class domestic, method II closure of PPP-B-636. The intermediate container shall be placed into a waterproof case, liner, fabricated and closed in accordance with MIL-L-10547 for subsistence items, and packed into a snug-fitting fiberboard box, constructed and closed in accordance with style RSC, V2 of PPP-B-636. If flaps are closed with metal stitches, the case liner shall be protected by placing a paperboard pad between the stitching and the case liner. The case liner shall be protected from stitches in the manufacturer's joint by covering the stitches with a strip of pressure-sensitive tape.

5.2.2.2 Level B. Forty-eight one pound (0.45 kg) packages of dry split peas, in an intermediate container and waterproof case liner as specified in 5.2.2.1, shall be packed into a snug-fitting fiberboard box, constructed and closed in accordance with style RSC, V3c, V3s or V4s, of PPP-B-636. The waterproof case liner shall be protected from stitches as specified in 5.2.2.1.

5.2.2.2.1 Non-metallic reinforcement of shipping container. When specified (see 6.1 and 6.2), the shipping container specified in 5.2.2.2 shall be reinforced with non-metallic strapping or pressure-sensitive adhesive, filament-reinforced tape in accordance with the appendix of PPP-B-636, except that two reinforcing bands may be used, one lengthwise and one girthwise.

5.2.2.3 Level C. Dry split peas in the quantity specified (see 6.1) shall be packed in accordance with the Uniform Freight Classification or National Motor Freight Classification, as applicable.

5.2.3 Unit loads. When specified (see 6.1), the dry split peas, packed as specified in 5.2.2, shall be arranged in unit loads in accordance with MIL-L-35078 for the type and class of load specified (see 6.1).

5.3 Labeling and marking.

5.3.1 Civil agencies.

5.3.1.1 Shipping containers. Shipping containers shall be marked in accordance with FED-STD-123 and such other information as specified by individual agencies.

5.3.2 Military agencies.

5.3.2.1 Packages. Labeling that complies with the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder is acceptable.

Check the source to verify that this is the current version before use.

5.3.2.2 Intermediate and shipping containers. Intermediate and shipping containers shall be marked in accordance with MIL-STD-129.

5.3.2.3 Unit loads. Unit loads shall be marked in accordance with MIL-L-35078.

6. NOTES

6.1 Ordering data. Purchasers should select the preferred options permitted herein and include the following information in procurement documents:

(a) Title, number, and date of this specification.
(b) Class and grade of product required (see 1.2.1 and 1.2.2).
(c) When pre-acceptance inspection is required by Civil agencies (see 4.2.1).
(d) Quantity required (see 5.2.1).
(e) Level of packing required (see 5.2.2).
(f) When reinforcement specified in 5.2.2.2.1 is required.
(g) Quantity per unit container required (see 5.2.2.3).
(h) Type and class of unit load required when unit loading is specified (see 5.2.3).

6.2 Packing specified in 5.2.2.2.1 is intended for transfer at sea operations or specific overseas operations.

6.3 Destination inspection (civil agencies only). When the finished product has been inspected and passed at point other than destination, the contract should require that the product be inspected at destination for condition and quantity only.

6.4 Based on the conditions known or expected to be encountered during shipping, handling, and storage of the specific item being procured, the contracting officer should select the appropriate level of pack in accordance with the criteria established in AR 700-15/NAVSUPINST 4030.28/AFR 71-6/MC 4030.14D/DSAR 4145.7.
