MIL-C-37444A
25 July 1977
SUPERSEDING
MIL-C-37444 (DSA-DM)
19 January 1976

MILITARY SPECIFICATION

CHLORPHENIRAMINE MALEATE SYRUP, USP

This specification is approved for use by all Departments and Agencies of the Department of Defense.

1. SCOPE

1.1 Scope. This specification covers Chlorpheniramine Maleate Syrup, USP (see 6.2).

2. APPLICABLE DOCUMENTS

2.1 Issues of documents. The following documents, of the issue in effect on date of invitation for bids or request for proposals, form a part of this specification to the extent specified herein.

SPECIFICATIONS

FEDERAL

PPP-B-636	- Boxes, Shipping, Fiberboard.
PPP-B-186	- Containers, Packaging and Packing for Drugs, Chemicals and Pharmaceuticals.

STANDARDS

MILITARY

MIL-STD-105	- Sampling Procedures and Tables for Inspection by Attributes.
MIL-STD-129	- Marking for Shipment and Storage.

(Copies of specifications and standards required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to: Headquarters, Defense Personnel Support Center, ATTN: Directorate of Medical Materiel, DPSC-ATT, 2800 South 20th Street, Philadelphia, PA 19101, by using the self-addressed Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document or by letter.

2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless otherwise indicated, the issue in effect on date of invitation for bids or request for proposals shall apply.

U. S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE,
FOOD AND DRUG ADMINISTRATION (FDA)

Federal Food, Drug, and Cosmetic Act and Regulations Promulgated Thereunder.

(Application for copies should be addressed to the Food and Drug Administration, Washington, DC 20204.)

U. S. PHARMACOPEIAL CONVENTION, INC.

The United States Pharmacopeia (USP).

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

The National Formulary (NF).

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

3. REQUIREMENTS

3.1 Material. Shall be Chlorpheniramine Maleate Syrup, USP, containing 2 mg of Chlorpheniramine Maleate per 5 ml within the applicable assay limits for the syrup.

3.1.1 Alcohol content. Alcohol content of the finished product shall be within the applicable assay limits for the syrup.

3.2 Ingredients.

3.2.1 Chlorpheniramine maleate and alcohol. The chlorpheniramine maleate and alcohol used in the manufacture of the syrup shall comply with the tests, standards, and requirements of the USP, including any supplements or revisions thereto.

3.3 Other ingredients. All other ingredients entering into the finished syrup shall be of USP or NF quality or, if not included in either of these compendia, the ingredients shall be suitable for use in this preparation.

Check the source to verify that this is the current version before use.

3.4 Expiration dating period. The expiration dating period shall be 60 months.

3.4.1 Delivery. Not more than 4 months of the expiration dating period shall have elapsed at the time of delivery to the Government.

3.5 Workmanship. The material and its containers shall be free from defects which detract from their appearance or may impair their serviceability.

4. QUALITY ASSURANCE PROVISIONS

4.1 Supplier responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government, upon the Government's request, at any time, or from time to time, during the performance of the contract and, (i) as to any expiration dated item, for the expiration dating period **specified by the contractor for such item, or such longer period as may be required by regulation of any federal agency; or (ii) as to non-dated items, for not less than 3 years after delivery of the item to the Government.**

4.1.2 No company supplying any ingredient(s) to the contractor will be considered an acceptable facility for the performance of any inspection requirements specified herein.

4.2 Lot. For purposes of this specification, a lot, batch, or control is that single, uniform, and homogeneous quantity of syrup produced from one formulation, subjected to the same compounding and manufacturing operation, and filled into final containers.

4.3 Sampling. Sampling shall be conducted in accordance with MIL-STD-105.

TABLE I. Sampling.

For visual examination	Inspection level	AQL (percent defective)	Unit of product
Major	S-2	1.0	Filled immediate container
Minor	II	2.5	Filled immediate container

.4.4 Examination. The finished syrup shall be examined to determine compliance with all requirements of this specification. Nonconformance will be permitted to the extent indicated in 4.3.

4.4.1 Classification of defects. Examination will be conducted in accordance with the following classification of defects:

TABLE II. Classification of defects.

Categories	Defects 1/
Major	
101	Syrup not free from foreign matter
102	Syrup has crystal formation.
103	Syrup not homogeneous.
Minor	
201	Exterior of immediate container is not free from contents or foreign matter.
202	Label not free from defacing marks and tears.

1/ Inspection is not restricted to the classified possible defects listed above.

* 4.5 Packaging inspection. The inspection of the intermediate package, packing and marking for shipment and storage shall be in accordance with quality assurance provisions of the applicable container specification and the marking requirements of MIL-STD-129.

4.6 Labeling inspection. Sampling shall be in accordance with MIL-STD-105 and the unit of product shall be the unit of issue. The inspection lot shall be the number of units of issue of each batch, lot, control number, etc., offered for inspection at one time. The inspection level for labeling shall be S-2 and the acceptance number shall be zero.

Check the source to verify that this is the current version before use.

4.7 Tests. Tests shall be performed to determine compliance with all requirements of this document and all referenced documents.

5. PACKAGING

5.1 Packaging requirements. The requirements for packaging shall be in accordance with all applicable requirements of PPP-C-186, and as specified herein.

5.2 Packaging. Packaging shall be level A or C, as specified (see 6.1).

5.2.1 Unit of issue. One bottle containing 4 fl ounces (118 ml), as specified, constitutes one unit of issue.

5.2.2 Level A.

5.2.2.1 Immediate container. The immediate container shall be a commercially available bottle considered acceptable by the Food and Drug Administration (FDA) for the product contained therein and shall be of such compatibility that neither the contents nor the container are altered in any way by each other.

5.2.2.2 Unit package. At the option of the contractor, a unit package may be furnished. If a unit package is furnished, each bottle shall be packaged as specified in 5.2.5 of PPP-C-186.

5.2.3 Level C. Units shall be packaged in standard commercial containers of the size and kind commonly used, which will afford the degree of protection required for shipment and use of the product for its intended purpose.

5.3 Packing. Packing shall be level A, B or C, as specified (see 6.1).

5.3.1 Level A. Thirty-six units shall be packed in an exterior container as specified in 5.4.4 of PPP-C-186.

* 5.3.2 Level B. Thirty-six units shall be packed in an exterior container designed for a type 2 load and constructed in accordance with PPP-B-636, class domestic. The box shall include partitions, liners, tops and bottom pads. When immediate containers or unit packages are stacked in two or more tiers, a pad shall be interposed between each tier. Partitions shall be full or shoulder height half-slotted style and fabricated of the same material as the box. Partitions shall form an individual snug-fitting cell for each bottle. Partitions shall not be required when plastic bottles or unit packages are furnished. Liners shall be one piece covering the ends and sides of the box and fabricated of the same material as the box. Liners shall not be required when plastic bottles are furnished. Pads, top and bottom, shall be fabricated of the same material as the box and shall not be more than 1/8 inch less than the inside length and width of the box. Pads shall be positioned on top and bottom of the liner and partitions. Closure shall be as specified in the appendix of PPP-B-636.

Check the source to verify that this is the current version before use.

5.3.3 Level C. The subject commodity shall be packed in substantial commercial containers of the type, size, and kind commonly used for the purpose, so constructed as to insure acceptance and safe delivery by common or other carriers, at the lowest rate, to point of delivery called for in the contract or purchase order.

5.4 Marking.

5.4.1 Labeling. Labeling shall be in accordance with the requirements of the Federal Food, Drug and Cosmetic Act, and shall include the information required below:

* 5.4.1.1 Immediate container. The label of the immediate container shall be a tri-part label consisting of the following: 1/

1) a tab portion which shall remain attached to the immediate container. This portion shall bear:

a) the National Drug Code (NDC)
b) the lot or control number
c) the expiration date

Other label information may be included.

2) a tear-off portion adjacent to the tab portion or at the extreme end of the label bearing the following:

a) the National Drug Code (NDC)
b) the lot or control number
c) the expiration date

No other labeling shall appear thereon.
This portion shall be easily removed for attachment to a prescription.

3) the principal portion connected to the tear-off and/or the tab portion shall bear the following:

a) all other information required by the Federal Food, Drug, and Cosmetic Act.

This portion shall be easily removed.

1/ As an alternate to the tri-part label, a commercially available label bearing the expiration date may be supplied on the immediate container. A commercially available regular, bi-part or tri-part label is considered a commercial alternate.

5.4.1.2 Unit package. Each unit package label shall bear the following information:

(a) label information in accordance with commercial practice.

(b) the National Stock Number.

Source: https://assist.dla.mil -- Downloaded: 202610-21T10:43Z
Check the source to verify that this is the current version before use.

NOTES: (1) The National Stock Number shall not be preceded by any prefix.

(2) Strip labeling may be used.

(3) Label adhesion test shall not apply.

* (4) If a unit package is not supplied, the National Stock Number shall appear on the principle portion connected to the tear-off and/or tab portion of the label on each immediate container. If the alternate to the tri-part label is used and a unit package is not supplied, the National Stock Number shall appear on the label of each immediate container.

* 5.4.2 Exterior container. Exterior container shall be marked as specified in 5.5.4 of PPP-C-186. Type I shelf life marking shall be shown as specified in MIL-STD-129. Marking shall include the legend: "STORE AT CONTROLLED ROOM TEMPERATURE 15° - 30° C (59° - 86° F)".

* 6. NOTES

6.1 Ordering data. Procurement documents should specify the following:

(a) Title, number and date of this specification.

(b) National Stock Number.

(c) Selection of applicable levels of packaging and packing (see 5.2 and 5.3).

6.2 This specification covers the following item:

National Stock Number	Item Identification
6505-00-149-0333	CHLORPHENIRAMINE MALEATE SYRUP, USP, 2 mg per 5 ml, 4 fl oz

6.3 Changes from previous issue. The margins of this specification are marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous issue were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous issue.
