4. QUALITY ASSURANCE PROVISIONS

4.1 Supplier responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government, upon the Government's request, at any time, or from time to time, during the performance of the contract and, (i) as to any expiration dated item, for the expiration dating period specified by the contractor for such item, or such longer period as may be required by regulation of any federal agency; or (ii) as to non-dated items, for not less than 3 years after delivery of the item to the Government.

4.1.2 No company supplying any ingredient(s) to the contractor will be considered an acceptable facility for the performance of any inspection requirements specified herein.

4.2 Lot. For purposes of this specification, a lot, batch, or control is that single, uniform, and homogeneous quantity of product produced from one formulation, subjected to the same compounding and manufacturing operation, and filled into final containers.

4.3 Sampling. Sampling shall be conducted in accordance with MIL-STD-105.

TABLE I. Sampling.

Check the source to verify that this is the currentversion before use.

(a) the item name designated as "CUPRIC SULFATE, NF".
(b) the quantity of contents designated as "37 Grams".

NOTE: The official abbreviation "g" may be used in lieu of the word "gram".

(c) the National Stock Number
(d) the lot or control number
(e) the name and address of the manufacturer. When the manufacturer is not the contractor, the name and address of the contractor shall also appear. When both names are placed on the label, the following designations shall precede the names: "MFR" for the manufacturer and "CONTR" for the contractor.
(f) the expiration date
(g) the word "POISON" in prominent red letters
(h) the statement "DO NOT USE IN EYES" in prominent red letters.
(i) the following instructions:

"For use in refilling copper sulfate solution bottle. To make approximately a 1 percent solution, pour one-half (1/2) capful into empty 4 oz bottle, fill with water and shake until dissolved. (A slight precipitate may form in this solution.) This does not lessen its efficiency."

(j) A small but readily legible label bearing the designation "Cupric Sulfate", shall be applied to the top of the screwcap closure.

5.4.1.2 Unit package. Each unit package label shall bear the following information.

If a unit package is supplied, each unit package shall bear the identical information as required for the immediate container.

Notes: (1) The National Stock Number shall not be preceded by any prefix.
(2) Strip labeling may be used.
(3) Label adhesion test shall not apply.
