NAS10001
22 July 1980

ACCEPTANCE NOTICE

This non-Government document was adopted on 22 July 1980 for use by DoD. The indicated industry group has furnished the clearance required by existing regulations. Copies of the document are stocked by the DoD Single Stock Point, Naval Publications and Forms Center (NPFC), Philadelphia, PA 19120 for issue to DoD activities only. Contractors and industry groups must obtain copies directly from the National Standards Association, Inc., 4827 Rugby Avenue, Washington, D.C. 20014, not from NPFC.

Title of Document: Preferred Metric Units for Aerospace

Document Number: NAS10001

Date of Specific Issue Adopted: 21 March 1978

Releasing Industry Group: Aerospace Industries Association of America, Inc.

Exceptions: The Federal Government's policy for the spelling of meter and liter is "er", with the provision that agencies have the option of using "re" when appropriate in international relationships.

Periods will be used for decimal points instead of commas.

The following should be used for cockpit instrumentation and related measurements, where the operation of the aircraft is regulated by the Federal Aviation Administration:

Unit	Measurement Application
Nautical Mile	Distance
Knot	Horizontal Speed
Bar or Inch of Mercury	Barometric Pressure
Foot	Altitude
Feet per Minute	Vertical Speed
Mile	Visibility
Pound	Mass (weight)

When reaffirmation, amendment, revision, or cancellation of this standard is initially proposed, the industry group responsible for this standard shall inform the military coordinating activity of the proposed change and request their participation.
