APPENDIX

CROSS-REFERENCE LIST

10. SCOPE

10.1 Scope. THIS APPENDIX IS NOT A MANDATORY PART OF THE SPECIFICATION. THIS APPENDIX PROVIDES GUIDANCE INFORMATION ONLY AND IS NOT INTENDED TO BE USED FOR PURPOSES OF INTERCHANGEABILITY.

10.2 This appendix provides a listing of part identifying numbers indicated on MIL-L-6363 detail specification sheets cross-referenced to Industry/ANSI lamp numbers for similar lamps. This cross-reference listing is intended for reference use only and is NOT to be used for interchangeability with commercial or other military designated lamps due to unique aircraft applications and qualification requirements of MIL-L-6363 and its associated detail specification sheets.

20. APPLICABLE DOCUMENTS

This section is not applicable to this appendix.

30. CROSS-REFERENCE LISTING

30.1 Detail specification sheet number assignments for various lamp family types have been preassigned, but not all specification sheets are formally issued at this time. Those issued are so noted. Those still in draft form are so noted, but listed for future convenience of cross-reference information.

30.2 This listing will be revised when additional part numbers are added to the MIL-L-6363 specification sheets listed, or when new MIL-L-6363 specification sheets are drafted or issued.
