COMMERCIAL ITEM DESCRIPTION

PIES, FROZEN, BAKED AND UNBAKED, 8, 9, OR 10 INCH DIAMETER

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description in lieu of Type II, Classes A and B, Styles 1 and 2 of MIL-P-35095, Pies, Fresh and Frozen.

Salient Characteristics.

Pies, Frozen, Baked and Unbaked, shall be two crust, lattice top, or crumb top, fruit or soft pies; one crust open face pies; Meringue pies; Chiffon, Cream pies; Nut pies; Egg Custard pies, and Cheese pies; and Boston Cream pies, as specified in the contract agreement.

Unbaked frozen pies shall be quick frozen after makeup. All pies shall be held at $0^{o}F$ or lower until time of receipt. They shall be not more than 45 days old at time of receipt at destination.

The fruit fillings shall be prepared from fresh, canned, evaporated or dried fruit, or frozen fruit, with sufficient sugar added. The filling shall be formulated from not less than 50 percent, by weight, of fruit, based on the weight of fresh fruit. In addition, appropriate liquid, flavoring(s), spice(s), seasoning(s), and thickening agent(s) and other FDA approved ingredients, may be used which will result in a satisfactory finished product.

The soft fillings shall be plain water or milk filling with appropriate flavoring(s), spice(s), seasoning(s), thickening agent(s), and other ingredients which will result in a satisfactory finished product. The pies, as applicable, when ready for serving shall have the following characteristics:

The fruit pies shall have a semi-solid filling of a viscosity that will permit the baked pie to be sliced as desired without the filling spreading more than 3/4 inch from the cut edge within 10 minutes after slicing. There shall be no lumpy or ungelatinized starch pockets and no uncooked raw starch flavor. The filling shall have flavor characteristic of the basic fruit, and the finished pie shall have no off-flavors or off-odors. The crust shall be evenly and properly baked with no areas of burned or scorched crust; shall be flaky and not tough nor soggy; shall not stick to the container and shall provide sufficient rigidity so that a cut pie portion may be removed and transferred to a serving plate without crumbling or breaking. The pie shall be so formulated and baked that there will be a minimum of filling exuded or extruded beyond or outside the crust.

The non-fruit pies shall not be watery nor weep. The filling shall have no ungelatinized pockets, and shall be uniformly distributed over the bottom crust. The filling shall not contain cracks or crevices or separate from the crust. The pies shall be easily cut into portions and transferred to serving dishes. The filling shall be not less than 3/4 inch thick. The crust shall not be overbaked or soggy and shall have no off-flavor or off-odor. The finished filling shall not be tough or rubbery, shall have no off-flavors or off-odors and shall have a typical pleasing flavor. Meringue or other toppings, if used, shall be 1 inch or more in thickness, shall be white except for the outer surface which shall be lightly browned, and shall not separate from the filling when the pie is cut.

The pie weights shall be in accordance with Table I, below:

TABLE I. Sizes and weights of pies 1/

Pie	Minimum wts for 8 inch pie		Minimum wts for 9-10 inch pie	
	Baked	Unbaked	Baked	Unbaked
Two crust, lattice or crumb top, fruit or soft pies	22 oz.	24 oz.	36 oz.	38 oz.
One crust open face pies (other than nut pies, egg custard pies, and cheese pies)	24 oz.	---	36 oz.	42 oz.
Meringue pies	20 oz.	---	34 oz.	---
Chiffon, cream pies	18 oz.	---	27 oz.	---
Nut pies, egg custard pies, and cheese pies	20 oz.	---	32 oz.	42 oz.
Boston cream pies	18 oz.	---	30 oz.	---

1/ The thickness of the bottom baked crust shall be not greater than 3/16 inch for regular crust and the top thickness not greater than 1/8 inch. For graham cracker crust and crumb-top, the thickness shall not be greater than 1/4 inch.

where

Deliveries shall comply with all applicable provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Contractor's Certification.

The contractor shall certify that the product offered meets the specified salient characteristics of this Commercial Item Description; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures and storage and handling practices; is the same product sold on the commercial market; has national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is sold on the commercial market with commercial sales to the public sector predominating over sales to the Federal Government. The Government reserves the right to determine proof of such conformance prior to the first delivery from point of origin and anytime thereafter, up to and including delivery at final destination, as may be necessary to determine conformance to the provisions of the contract.

Packaging, Packing, Labeling, and Marking (As appropriate and applicable).

A. Packaging. The pies shall be packaged in accordance with good commercial practice. The package shall afford adequate protection against deterioration and physical damage during shipment from the supply source to the first consuming activity.

B. Packing. Packing shall be in accordance with good commercial packing complying with Uniform Freight Classification or National Motor Freight Classification, as applicable.

C. Labeling. Commercial labeling of packages will be acceptable, provided the date of packaging (day, month, which may be abbreviated) is shown in an easily discernible location, and complies with regulations promulgated by the Food and Drug Administration.

D. Marking. Commercial markings of shipping containers are acceptable, provided the following information is included:

National Stock Number
Item Description
Quantity, Unit of Issue
Date of Manufacture (month, day and year or Julian date) 1/
Contract Number
Name, Address and Zip Code of Manufacturer

1/ Date manufactured is the date on which the pies were packaged in the primary unit container.
