Check the source to verify that this is the current version before use.

REQUIREMENTS:

1. Style 1 adapters are for use with class R and C connectors and style 2 adapters are for use with class R, C, and J connectors. Styles 1 and 2 adapters are for use with connectors MS17343, MS17344, MS17345, and MS17347.
2. Adapter finish shall be designated by the letter C (conductive) or N (nonconductive).
3. Adapter type shall be designated as A or B. Type A is for use with connector MS17344; type B is for use with connectors MS17343, MS17345, and MS17347. Adapter, cap, and chain is considered a complete assembly.
4. Part number shall include finish, adapter size number, type and style as shown in example below:

5. Chain shall be passivated stainless steel in accordance with type II, class 3, trade number 8 of RR-C-271 and shall be within one link of length specified.

NOTES:

1. All dimensions are in inches
2. Metric equivalents are given for general information only.
3. Unless otherwise specified tolerances are ±.016 (0.41 mm).
4. It is intended that connectors and their associated accessories be of the same finish (see requirement 4).
5. In the event of a conflict between the text of this standard and the references cited herein, the text of this standard shall take precedence.
6. Referenced Government documents of the issue listed in that issue of the Department of Defense Index of Specifications and Standards (DODISS) specified in the solicitation form a part of this standard to the extent specified herein.
