PPP-B-1714
AMENDMENT-1
June 22, 1976

FEDERAL SPECIFICATION

BAGS, SHIPPING: WOVEN POLYPROPYLENE

This amendment, which forms a part of Federal Specification PPP-B-1714, dated August 14, 1973, was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

PAGE 3

Paragraph 3.3.1.3, third and fourth lines. Delete "Stitching shall be no nearer to fabric edge or folded edge than one-half inch, and shall traverse full width and length of bag," and substitute "The foldback or foldover portion of sewn longitudinal side seam (seam type ssd-1) shall measure approximately 1 inch, but in no event less than 3/4 inch from the fold to the raw edge. The stitch line shall traverse within the center area of this foldover portion, no closer than 1/4 inch to either the raw edge or folded edge of the fabric, at any point. When a flat seam is on the bottom, the stitching shall be no nearer to the fabric edge than one-half inch. If a single foldover seam is used on the bottom, the fold shall range between three-quarters and one inch and the stitching shall be no nearer the folded edge than one-fourth inch."

Paragraph 3.4, third line. Delete "alternate" and substitute "aftermade."

PAGE 4

Table II, Air Permeability, delete "10" under min. and substitute "8" for the five fabrics in the table.

PAGE 8

Paragraph 5.1.1.1.3, first line. Delete "IV" and substitute "V".
