PAGE 15 (con.)

After paragraph 5.3 Marking, add new paragraph as follows:

"5.4 Unitization. The dunnage bags shall be unitized or palletized in accordance with normal commercial practice with gross weight not to exceed 2,500 lbs.

Paragraph 6.1 Intended use. Delete in its entirety and subbstitute the following:

"6.1 Intended use. Inflatable pneumatic dunnage, as covered in this specification, is intended to be use in place of wood shoring dunnage to secure the cargo and fill voids in truck, rail l d containerized shipments. The air dunnage bags,unlike rigid wood bracing, extend to compact loads, absorbs shock and provides resilient cushioning l ction to the cargo in position during transit. Type I dunnage bags are designed for "one time use" and are=* expandable. Type II dunnage bags l re reuseable and are to be deflated, packed in a shipping container and returned to the original shipper (agency)."

PAGE 16

Paragraph 6.2, Ordering data, (d), line 2: Delete "Level D" and substitute "Commercial".

Paragraph 6.3 Classification change. Delete in its entirety and substitute the following:

"6.3 Classification change. Additional bag sizes added to facilitate truck end containerized type shipments."
