FEDERAL SPECIFICATION

PACKAGING AND PACKING OF TYPEWRITERS

This amendment, which forms a part of Federal Specification PPP-P-1148A, dated May 1, 1967, was approved by the Commissioner, Federal Supply Service, General Services Administration, for use of all Federal agencies.

PAGE 1

Paragraph 2.1. Under "Federal Specifications" add "PPP-F-320 - Fiberboard; Corrugated and Solid, Sheet Stock (Container Grade), and Cut Shapes."

PAGE 2

Paragraph 3.3.2. Renumber as 3.3.3.

Insert the following new paragraphs:

3.3.2 Level B.

3.3.2.1 Desk typewriters. Desk typewriters shall be preserved and packaged in accordance with 3.3.1.

3.3.2.2 Portable typewriters. All unpainted or otherwise unfinished surfaces of the typewriter shall be thoroughly cleaned in accordance with MIL-P-116, process C-1. Cleaned surfaces shall be coated by means of an atomized spray with preservative oil conforming to VV-L-800. Portable typewriters shall be preserved in accordance with MIL-P-116, method IIb, and in accordance with the following: Portable typewriters shall be locked in their cases with the standard locking mechanism provided. Carriages shall be blocked with dowel pins or by suitable means.

PAGE 4

Paragraph 3.4.1.1.2, line 1. Change "packages" to "packaged".

PAGE 5

Paragraph 3.4.2. Delete and substitute the following:

3.4.2 Level B.

3.4.2.1 Desk typewriters. Desk typewriters, packaged as specified in 3.3, shall be packed in a manner that shall meet the test requirements in 4.2.3. The unit pack shall be considered to have satisfactorily passed the test if, upon examination, the typewriter is free from damage and the container and inner packing have only superficial scuffs, scratches, or dents. Unless otherwise specified in 3.4.2.1.1, shipping containers shall conform to the following:

(a) PPP-B-636, class domestic, type CF or SF, variety SW or DW.
(b) PPP-B-591, class 1.
(c) PPP-B-640, class 2.
(d) PPP-B-601, domestic type.
(e) PPP-B-576, class 1, style A or B, type 3 load.
(f) A molded plastic container of expanded polystyrene or equivalent material.

Add the following new paragraphs:

3.4.2.1.1 When specified (see 6.2), class weather-resistant fiberboard or cleated fiberboard boxes conforming to PPP-B-636, PPP-B-640, or PPP-B-591 shall be used.

3.4.2.2 Portable typewriters. Unless otherwise specified in 3.4.2.2.1, each portable typewriter (in carrying case) shall be packed in a fiberboard box conforming to PPP-B-636, class domestic, type CF. The manufacturer's joint shall be glued or taped (no staples shall be used). Before sealing the flaps of the box pads of sufficient thickness, formed of folded scored fiberboard sheets, shall be placed on each side of the handle to protect the handle of the carrying case. If the carrying case is not rectangular, fiberboard buffer pads shall be scored, folded, and so placed to fill the void space. The box shall be

closed and secured with tape or glue (no staples shall be used). The pack shall meet the test requirements of 4.2.3. The pack shall be considered as having satisfactorily passed the test if, upon examination, typewriter and case are free from damage and the container and inner packing have only superficial scuffs, scratches, or dents.

Add the following new paragraph:

3.4.2.2.1 When specified (see 6.2), shipping containers shall be made from grade V3c or V3s fiberboard. The box shall be fabricated in accordance with the weather-resistant requirements of the appendix of PPP-B-636. The shipping container material may also be grade V4s of PPP-F-320.

PAGE 6

Table II. Opposite packaging defects for portable typewriters immediately following the defects for categories 110, 111, and 208 add "(Level B also)".

Under the heading "Packaging" delete "Level A, option II" and substitute "Level A or B, option II".

PAGE 7

TABLE II. Between "Packing Level A" and "Marking" insert:

	Defects	Category Major	Category Minor
Level B	Container not as specified	124	
	Scored and folded pads for portable typewriters missing, when required		211
	More than one typewriter to box	125	
	Manufacturer's joint secured with staples		212
	Box closed with staples		213

Paragraph 4.2.3. Delete "option II".

Add the following subparagraph to 6.2:

(f) When weather-resistant fiberboard is required for fiberboard or cleated fiberboard boxes for level B shipment (see 3.4.2.1.1 and 3.4.2.2.1)."

Add the following new paragraph:

6.3 Packing specified in 3.4.2.1.1 and 3.4.2.2.1 is intended to provide the limited Military protection required for shipment to certain specified overseas destinations, and transfer at sea.
