MILITARY STANDARD

AUTOMATED ENGINEERING DOCUMENT PREPARATION SYSTEM

TERMINALS , AND TERMINAL STRIPS

TO ALL HOLDERS OF DOD-STD-35-19A(MI);

1. THE FOLLOWING PAGES OF DOD-STD-35-19A(MI) HAVE BEEN REVISED AND SUPERSEDE THE PAGES LISTED.

NEW PAGE	DATE	SUPERSEDED PAGE	RATE
1	21 AUGUST 1978	(Reprinted without change)	
2	30 JUNE 1992	2	21 AUGUST 1978
3	30 JUNE 1992	3	21 AUGUST 1978
4	21 AUGUST 1978	(Reprinted without change)	

2. RETAIN THIS NOTICE PAGE AND INSERT BEFORE THE TABLE OF CONTENTS.

3. Holders of DOD-STD-35-19A(MI) will verify that page changes and additions indicated above have been entered. The notice page will be retained as a check sheet. This issuance, together with appended pages is a seperate publication. Each notice is to be retained by stocking points until the Military Standard is completely revised or canceled.

1. SCOPE

1.1 General. This dash-numbered part of the Automated Engineering Document preparation System (AEDPS), provides detailed requirements for the preparation of Military Specification Exception (MSE.) documentation for terminals and terminal strips.

1.2 Purpose. This military standard" provides the necessary information to prepare a Spcification Requirerment Sheet (SRS) which will be used to generate a MSE by automated data processing.

1.3 Utilization. General instructions, quality assurance provisions, packaging, and notes, applicable to all AEDPS dash-nunbered parts have been included in the basic document (DOD-STD-35)to avoid redundancy. Unless otherwise specified in this dash-numbered part, the following list contains additional subjects that are applicable to all AEDPS dash-tired parts and and included in DOD-STD-35:

a. Writing Methodology
b. Document and Part Numbering
c. Applicable Documents
d. Single and Multi-item Specification (Tabulation)
e. Keyword Code Index (KCI)
f. General Requirements of AEDPS

1.4 Military Specification Exception Title Index. The title code for an MSE shall be selected from one of the MSE titles listed in the Title Index (see table I). Data bases have been established for the generation of MSE°S for the MSE titles indicated. If a suitable title code is not contained in the Title Index, leave the title code spaces on the SRS blank, and attach a request for the assignment of a title code. Include in the request the desired title and the base document identifier. A code will be assigned and the rode, title, and base document will be made a part of the Title Index.

One of the six-digit codes listed in the Title Index, entered on an SRS, will specify that the title of the MSE will be the title shcwn in the Title Index.

Each MSE title listed in the Title Index is compatible with the document(s) listed with that title under base document. The list of base documents may or may not be a complete listing. The information shcwn under coverage is intended for the user°s reference; when more than one document is listed for a MSE title, this information will be found useful in determining which of the documents is most suitable for use as the base document.

Check the source to verify that this is the currentversion before use.

The MSE title may or may not be the same as the title used in DODISS, FIIG, or the base document. In general, the MSE title uses the basic federal item name listed in Cataloging Handbook H6. However, titles ,with additional modifying and identifying words are provided to assist in defining the scope of the MSE , Also less restrictive titles are provided to prevent exclusion of items.

TABLE, I. TITLE INDEX

MSE TITLE	TITLE CODE	BASE DCCUMENT NUMBER	BASE DCCUMENT COVERAGE
TERMINAL LUG AND SPLICE , CRIMP STYLE, ALUMINUM	029001	MIL-T-7099	ACFT, TERM
		MS25435	LUG, STRAIGHT
		MS25436	LUG 90 DEG UPRT
		MS25437	LEG, LEFT ANGLE
		MS25438	LUG, RTANG
		MS25439	SPLICE, PERM, CRIMP STYLE, 2-WAY
TERMINAL LUG AND SPLICE , CRIMP STYLE, COPPER	029002	MIL-T-7928	TERMINALS GENERAL SPEC
		MS17143	LUG, INSULATED RECT TONGUE
		MS20659	LUG , UNINSULATED, RING TONGUE
		MS21004	LUG, UNINSULATED , RECT TONGUE, TYPE 1, CLASS 1 L-86 MAX
		MS90404	LUG , TERMINAL, TYPE 1, CLASS 2
