FUSES

TO ALL HOLDERS OF MIL-STD-35-10C(MI):

1. THE FOLLOWING PAGES OF MIL-STD-35-lC(MI) HAVE BEEN REVISED AND SUPERSEDE THE PAGES LISTED.

NEW PAGE	DATE	SUJPERSEDED PAGE	DATE
1	27 SEPTEMBER 1985 (Reprinted without change)		
2	30 JUNE 1992	2	27 SEPTEMBER 1985
3	30 JUNE 1992	3	27 SEPTEMBER 1985
4	30 JUNE 1992	4	27 SEPTEMBER 1985
5	30 JUNE 1992	5	27 SEPTEMBER 1985
6	27 SEPTEMBER 1985 (Reprinted without change)		

2. RETAIN THIS NOTICE PAGE AND INSERT BEFORE THE TABLE OF CONTENTS.

3. Holders of MIL-STD-35-1OC(MI) will verify that page changes and additicns indicated above have been entered. The notice page will be retained as a check sheet. This issuance, together with appended pages is a separate publication. Each notice is to be retained by stocking points until the Military Standard is completely revised or canceled.

1. SCOPE

1.1 General. This dash-numbered part of the Automted Engineering Document Preparation System (AEDPS), provides detailed requirements for the preparation of Military Specification Exception (MSE) documentation for Fuses.

1.2 Purpose. This military standard provides the necessary information to prepare a Specification Requirement Sheet (SRS) which will be used to generate a MSE by automated data processing

1.3 Utilization. General instructions, quality assurance provisions, packaging, and notes, applicable to all AEDPS dash-numbered parts have been included in the basic document (DOD-STD-35) to avoid redundancy. Unless otherwise specified in this dash-numbered part, the following list contains additional subjects that are applicable to all AEDPS dash-nunbered parts and are included in DOD-STD-35:

a. Writing Methodology
b. Document and Part Numbering
c. Applicable Documents
d. Single and Multi-item Specification (Tabulation)
e. Keyword Code Index (KCI)
f. General Requirements of AEDPS

1.4 Military Specification Exception Title Index. The title code for a MSE shall be selected from one of the MSE titles listed in the Title Index (see table I). Data bases have been established for the generation of MSES for the MSE titles indicated. If a suitable title code is not contained in the Title Index, leave the title code spaces on the SRS blank, and attach a request for assignment of a title code. Include in the request the desired title and the base document identifier. A code will be assigned and the code, title, and base document will be made a part of the Title Index.

One of the six-digit codes listed in the Title Index, entered on a SRS, will specify that the title of the MSE will be the title shown in the Title Index.

Each MSE listed in the Title Index is compatible with the document(s) listed with that title under base document. The list of base documents may or may not be a complete listing. The information shown under coverage is intended for the user°s reference; when more than one document is listed for a MSE title, this information will be found useful in determining which of the documents is most suitable for use as the base document.

TABLE I. TITLE INDEX (CONT)

MSE TITLE	TITLE CODE	BASE DOCUMENT NUMBER	BASE DOCUMENT COVERAGE
FUSE , NONINDICATING, CARTRIDGE, FERRULE	027012	MIL-F-23419	CAKTRIDGE FERUL NONINDICATING
FUSE, NONINDICATING, KNIFE BLADE	027007	MIL-F-15160	KNIFE BLADE NONINDICATING
FUSE, NONINDICATING, KNIFE BLADE, TERMINAL SCREW	027008	MIL-F-16160	KNIFE BLADE SCREW TERMINAL NONINDICATING
FUSE, NONINDICATING, OFFSET SPADE LUG	027009	MIL-F-15160	OFFSET SPADE LUG NONINDICATING
FUSE, NONINDICATING, SINGLE-ENDED PIN	027010	MIL-F-23419	PIN, SINGLE-END NONINDICATING
FUSE, NORMAL BLOWING	027015	MIL-F-48844	NORMAL BLOWING
FUSE, PLUG	027011	W-F-791	PLUG TYPE

The MSE title may or may not be the same as the title used in DIDISS, FI IG, or the base document. In general, the MSE title used the basic federal item name listed in Cataloging handbook H6. However, titles with additional modifying and identifying words are provided to assist in defining the scope of the MSE. Also, less restrictive titles are provided to prevent exclusion of i terns.
