COMMERCIAL ITEM DESCRIPTION

FILE, HAND (SWISS PATTERN), CONTACT-POINT

The General Services Administration has authorized the use of this commercial item description in preference to Type XXII of Federal Specification GGG-F-331.

This commercial item description covers hand files used for cleaning out and enlarging slots in screwheads.

Salient characteristics:

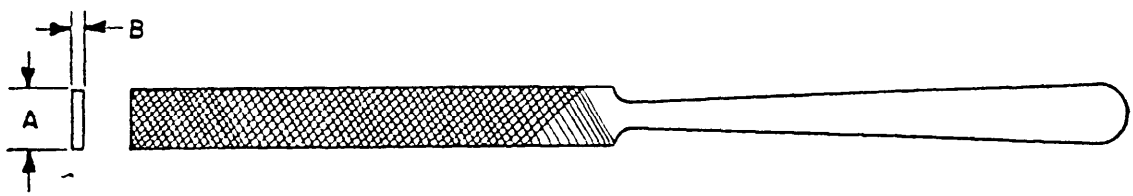

Material: Carbon alloy steel.

Design: Uniform in width from heel to point. One-piece construction includes handle with rounded end. Double-cut (two sets of parallel cuts on the surface, one set crossing the other) or single-cut (one set of parallel cuts on the surface) on both sides. Uncut (safe) on both square edges.

Teeth: Uniformly cut or etched and of uniform height throughout the fully cut portion. Cutting surfaces hardened to a uniform hardness. The distance along the length of the cut shall be hardened to not greater than 68 nor less than 63 on the Rockwell C scale. Free from decarburization and brittleness.

Marking: Marked with the cut number, the country of origin, and the name of the manufacturer or with a trademark of such known character that the source of manufacture may be readily determined.

Workmanship: The teeth of the file shall be well-defined, sharp, and uniform in height and form. There shall be no evidence of rust or other defect which may impair serviceability, durability, or appearance.

National Stock Number	Overall Length	Nominal dimensions of section		Number of teeth crossed per inch	Length of cut (minimum)	Allowable warpage (maximum)
	Inches	A Inch	B Inch		Inches	Degrees
5110-00-595-8295	5-1/4	5/16	0.045	51 by 68	2-1/2	2

Tolerance: Length - plus or minus 10 percent.
Width (A) - plus or minus 10 percent.
Thickness (B) - plus or minus 10 percent.
Number of teeth per inch - plus or minus 5 percent.

Regulatory requirements. In accordance with the section 23.403 of the Federal Acquisition Regulations, the Government's policy is to acquire items composed of the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition without adversely affecting performance requirements or exposing suppliers' employees to undue hazards from the recovered materials.

Preservation, packaging, packing, labeling, and marking. The preservation, packaging, packing, labeling, and marking shall be as specified in the contract or order.

PREPARING ACTIVITY:

GSA-FSS
