COMMERCIAL ITEM DESCRIPTION

RIFFLER, DIE SINKERS
(SWISS PATTERN), SHAPE NUMBER 15

The General Services Administration has authorized the use of this commercial item description in preference to Type XX, Class 15 of Federal Specification GGG-F-331.

This commercial item description covers rifflers used by die sinkers, tool and instrument makers, and jewelers.

Salient characteristics:

Material: Carbon alloy steel.

Design: Identical shape and cut area on each end. Uncut (safe) on middle portion which is slender and straight and serves as a hand hold.

Teeth: Uniformly cut or etched and of uniform height throughout the fully cut portion. Cutting surfaces hardened to a uniform hardness of not greater than 68 nor less than 63 on the Rockwell C scale. Free from decarburization and brittleness.

Marking: Marked with the shape and cut number, the country of origin, and the name of the manufacturer or with a trademark of such known character that the source of manufacture may be readily determined.

Workmanship: The teeth of the riffler shall be well-defined, sharp, and uniform in height and form. There shall be no evidence of rust or other defect which may impair serviceability, durability, or appearance.

National Stock Number	Cut Number	Overall Length *Inches*	Number of teeth per inch	Length of cut *Inches*
5110-00-149-1432	2	6-1/2	80	1-1/2

Tolerance: Length - plus or minus 1/8 inch.
Number of teeth per inch - plus or minus 5 percent.
