QQ-S-630
CANCELLATION
June 6, 1975

FEDERAL SPECIFICATION

STEEL, BAR, CARBON, HOT ROLLED (MERCHANT QUALITY)

This cancellation was approved by the Commissioner,
Federal Supply Service, General Services Administration.

Federal Specification QQ-S-630A, dated May 21, 1970, is hereby canceled. Future procurements for this material should refer to the following ASTM documents as applicable:

A 575 - Merchant Quality Hot-Rolled Carbon Steel Bars
A 663 - Merchant Quality Hot-Rolled Carbon Steel Bars Subject to Mechanical Property Requirements

Hot rolled bars of merchant quality are supplied to either chemical composition (A 575) or to mechanical property requirements (A 663) not both.

Merchant quality bars purchased to A 575 are used for structural and similar miscellaneous bar applications involving moderate cold blending, moderate hot forming, punching, and welding as used in the production of non-critical parts. Material purchased to A 663 is intended for non-critical constructional applications.
