NOTICE OF CANCELLATION

INCH-POUND

MIL-R-39008/2F
NOTICE 3
9 January 2009
SUPERSEDING
NOTICE 2
18 September 1998

MILITARY SPECIFICATION

RESISTORS, FIXED, COMPOSITION (INSULATED),
ESTABLISHED RELIABILITY,
STYLE RCR20

MIL-R-39008/2, dated 23 August 1989, is hereby canceled. Future acquisitions for this item, the designer may consider the following alternatives:

For general application.

MIL-PRF-39017/2 - Resistors, Fixed, Film (Insulated), Nonestablished Reliability, and Established Reliability, Style RLR20.

DSCC drawing 98021 - Resistor, Fixed, Film (Insulated), 1/2 Watt.

NOTE: Designers are CAUTIONED on using the above alternative superseding resistors in high power pulse applications. Since they have not been qualified nor tested for such applications, damage and premature failure are possible. These alternative resistors only see a one time pulse (Short-time overload) as part of the group B inspection of these military specifications.

For pulse applications, the following specifications may be considered. Designers are advised to carefully review the pulse capability guidelines in these specifications in connection with the application pulse environment:

DSCC drawing 03005 - Resistor, Fixed, Carbon Film, High Pulse Voltage, 1/2 Watt.

DSCC drawing 99001 - Resistor, Fixed, Ceramic Composition (Insulted).

Custodians:
Army - CR
Navy - EC
Air Force - 85

Reviewing activity:
Army - AR, AT, AV, CR4, MI
Navy - AS, MC, OS
Air Force – 19, 99

Preparing activity:
Army - CR

Agent:
DLA - CC

(Project 5905-2008-059)
