FEDERAL SPECIFICATION

CLOTH, SHEETING, COTTON (LAUNDRY COVER CLOTH)

This amendment, which forms a part of Federal Specification CCC-C-435C dated August 18, 1966, was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

PAGE 1

Paragraph 2.1: Delete "PPP-P-51 - Packaging, Packing, and Marking of Textile Fabrics (Woolens, Worsteds, Cottons, Silks and Synthetics)" and substitute "PPP-P-1134 - Packaging and Packing of Cotton and Cotton-Synthetic Fiber Blend Fabrics (Excluding Duck Fabrics)."

Paragraph 2.1, second source paragraph, line 7: Delete the word "Dallas" and substitute "Fort Worth".

PAGE 2

Paragraph 3.5, lines 5 and 6: Delete "PPP-P-51" and substitute "PPP-P-1134".

Paragraph 4.1, second sentence, delete and substitute: "Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government."

Add the following new paragraph:

4.1.1 Certificate of compliance. Where certificates of compliance are submitted, the Government reserves the right to check test such items to determine the validity of the certification.

Paragraph 4.2.1, delete and substitute:

4.2.1 Yard-by-yard examination. Each folded piece or roll in the sample shall be examined on the face side only. When the total yardage in the folded piece or roll does not exceed 100 yards, the entire yardage in the folded piece or roll shall be examined. When the total yardage in the folded piece or roll exceeds 100 yards, only 100 yards shall be examined. All defects as defined in section I of Fed. Std. No. 4, which are clearly noticeable at normal inspection distance (3 feet) shall be scored and assigned demerit points as listed in 4.2.1.1 except that only those slubs and knots which exceed the limits shown in figure 1 shall be scored. No linear yard (increments of 1 yard on the measuring device of the inspection machine) from any folded piece or roll within the sample shall be penalized more than 4 points. The sample size shall be 20 folded pieces or rolls selected from 20 containers. The lot shall be unacceptable if the points per 100 square yards of the total yardage examined exceeds 35 points. The lot shall be unacceptable if the points per 100 square yards of two or more individual folded pieces or rolls exceed 53 points. If no individual folded piece or roll exceeds 53 points per 100 square yards, the lot shall be acceptable with respect to this characteristic. If one folded piece or roll exceeds 53 points per 100 square yards, a second sample of 20 folded pieces or rolls shall be examined only for individual folded piece or roll quality examination. The lot shall be unacceptable if one or more folded pieces or rolls in the second sample exceeds 53 points per 100 square yards. For individual folded piece or roll quality examination, local type defects only shall be scored. Overall type defects shall be scored only in determining compliance with the lot average quality requirements. Point computation for lot quality and individual folded piece or roll quality shall be as follows:

$$\frac{\text{Total points scored in sample} \times 3600}{\text{Contracted width of cloth (inches)} \times \text{total yards inspected}} = \text{Points per 100 square yards"}$$
