FEDERAL QUALIFIED PRODUCTS LIST

OF FSC 261O

PRODUCTS QUALIFIED UNDER FEDERAL SPECIFICATION

ZZ-T-41OD (GSA-TPUS)

TIRES, PNEUMATIC, INDUSTRIAL

This Qualified Products List has been prepared by the General Services Administration for Pneumatic Tires, tubeless, tube type, for mounting on industrial type vehicles, which has been approved for procurement by the Federal Government. The list is based upon the results of laboratory tests prescribed in Federal Specification ZZ-T-41OD. This list is subject to change without notice; revision or amendment will be issued as necessary. The inclusion of tires in this does not release the supplier from compliance with the specification requirements for tires supplied to the Government. Use of this Qualified Products List for advertising in such a manner as to state or imply that tires listed hereon are endorsed or preferred by the Federal Government or are considered by the Government to be superior to other tires is prohibited.

NOTE: 1. SINCE ALL TIRES MANUFACTURED WERE NOT OFFERED FOR TESTING, THE OMISSION OF ANY TIRE FROM THIS QPL DOES NOT NECESSARILY MEAN THAT THE UNLISTED TIRE IS EITHER UNSAFE OR INFERIOR IN QUALITY.

2. ALL SIZES AND PLY RATINGS FOR TIRE BRANDS SHOWN IN THIS QPL ARE ACCEPTABLE.
