W-G-656D
AMENDMENT-4
June 30, 1978
SUPERSEDING
Amendment-3
May 19, 1977

FEDERAL SPECIFICATION

GRINDING MACHINE AND GRINDING AND BUFFING MACHINE, UTILITY, BENCH AND PEDESTAL, ELECTRIC

This amendment which forms a part of Federal Specification W-G-656D, dated October 15, 1973, was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

PAGE 3

2.1, Under "Military Standard" delete MIL-STD-130 and its title.

PAGE 7

3.4.3 Grinding wheel assembly. Line 14: Delete sentence beginning "Motor" and ending "OFF" and insert:

"The motor shall be controlled by means of a two position switch having the run position and the stop position legibly identified."

PAGE 11

Table I, Sizes and Capacities, Type IV and Type V, Spindle shaft diameter, inches: Size 8, delete 1 and insert 5/8; Size 10, delete 1-1/4 and insert 3/4.

PAGE 12

3.11.4 Starting mechanism. Delete first ten lines and insert "Each machine shall have a switch of the proper capacity to control the motor used. The switch case shall be constructed of a suitable insulating material, or of metal suitably insulated from current carrying parts and effectively grounded. Each motor of over one horsepower, and each motor rated at more than 230 volts, shall be controlled by a pushbutton and magnetic starter having overload and low voltage protection; each motor of one horespower or less, and rated at 230 volts or less shall have a built-in switch and overload protection. The switch shall be located".
