COMMERCIAL ITEM DESCRIPTION

ARCH SUPPORTS

The General Services Administration has authorized the use of this commercial item description in preference to A-A-0051639(DM), dated 19 Sep 1986.

This commercial item description covers one type of lightweight orthotic arch support for patients experiencing discomfort and pain associated with stress to the anatomical structures of the foot caused by standing, walking, running and various athletic maneuvers.

Salient characteristics:

The arch supports shall be constructed with a lower layer of closed cell ethylene foam and an upper layer of vinyl backed cloth. The supports shall mold to the foot and shall be suitable for use by patients with high arched, normal arched or flat feet. The supports shall limit pronation of flat feet and shall facilitate pronation of high arched feet. The supports shall be constructed to provide varus wedge in the range of 2 to 7 degrees. This varus wedge is started at the very back of the heel and is gradually increased toward the forefoot area so that there is a maximum amount of wedging under the second metatarsal head which includes a rearfoot wedging and an additional forefoot wedge of from 1 to 10 degrees and preferably from 3 to 10 degrees. The wedge drops off abruptly under the first metatarsal head to a level that forms a neutral plane or valgus (lateral) wedge on a plane from the first metatarsal head to the fifth metatarsal head with the rearfoot. The arch supports shall fit men's shoe sizes 7-8, 9-10, and 11-12. They shall be suitable for both street and athletic shoes.

Workmanship. The arch supports shall be free from defects which detract from their appearance or impair their serviceability.

Unit. Pair (PR). One pair consisting of one left and one right arch support, as specified, constitutes one unit.

Sampling for tests. Sampling for tests shall be conducted in accordance with MIL-STD-105 and as specified herein. The unit of product for test purposes shall be one (1) pair.

AMSC N/A FSC 6515

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Numbers are covered by this document:

6515-01-217-1245
6515-01-217-4381
6515-01-217-4382

Ordering data. Intermediate/exterior package quantities, labeling, and marking must be specified in the contract and/or order.
