COMMERCIAL ITEM DESCRIPTION

CLEANING COMPOUND, GENERAL PURPOSE, DENTAL

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a dental general purpose cleaning compound suitable for use with an ultrasonic cleaning machine.

Salient characteristics:

The cleaning compound shall be a concentrated, granular powder which, when mixed with water, produces a high strength, general purpose, cleaning solution suitable for use with ultrasonic cleaning machines. The cleaner shall be contained in a package having two suitable airtight, waterproof envelopes of cleaning compound and two decals for labeling solution containers after mixing. Each envelope shall hold a minimum of 100 grams of cleaning compound and each, when mixed with one gallon of water, shall make a like quantity of concentrated solution. The cleaning compound shall be specially formulated for dental use so as to clean a wide variety of articles and contaminates. The cleaning solution shall clean metals of all types (including aluminum and magnesium), plastics, rubber, glass, and porcelain in from 1 to 5 minutes in an ultrasonic cleaning machine. The solution shall be especially useful for cleaning residual alginate from dental impression trays. The solution shall have a pH value of 9.0 to 9.5 when mixed in accordance with manufacturer's instructions.

Materials. The ingredients in the cleaning compound shall be biodegradable, nontoxic, and shall not harm the skin. The cleaning compound shall form an anionic detergent comprised of wetting agents, emulsifying agents, carbonates and phosphates when in water solution.

Manufacturing instructions. Each envelope shall have instructions for use printed on outside.

Workmanship. Powder shall be free of lumps, dirt and foreign matter and from other defects which detract from its appearance or may impair its serviceability.

AMSC N/A FSC 6520

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Unit. Package (PG). One package containing twelve envelopes (six packages, two envelopes per package), as specified constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Sampling for inspection. Sampling for inspection shall be conducted in accordance with MIL-STD-105. Where feasible, the same sample shall be used for the determination of two or more inspection characteristics. The unit of product for inspection purposes shall be one package. Unless otherwise specified, sampling for examination shall be conducted at inspection level II, AQL 2.5, and sampling for examination tests (when applicable) shall be conducted at inspection level S-1, AQL 1.0.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producer's own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder.

In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

National Stock Number	Item Identification
6520-01-115-9180	CLEANING COMPOUND, GENERAL PURPOSE, DENTAL, 100 Grams, 12s: Granular Powder

Ordering data. Intermediate/exterior package quantities, labeling, and marking must be as specified in the contract and/or order.
