Check the source to verify that this is the current version before use.

4.3.2.1: Delete paragraph 4.3.2.1 in its entirety and substitute the following:

"4.3.2.1 Static burning time, major code 04001. Samples of approximately equal weight shall be taken from each container. The weight of the sample should be adjusted so that a 10 pound composite sample is obtained. This sample should be blended uniformly and tested (see 4.4.4). If the average burning time or an individual times about the average fails to comply with the requirement of 3.6, the lot shall be rejected."

The margins of this amendment are marked with an asterisk or vertical lines to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment.
