4.5.3: Delete the second sentence.

PAGE 18

4.5.5.2.1: Delete $\frac{\text{"F-(A-B)"}}{W(1-.01M)D}$ and substitute $\frac{\text{"F(A-B)"}}{W(1-.01M)D}$

PAGE 19

4.5.5.2.2: Delet first and second sentences and substitute: "Transfer a portion of this solution to an acorex glass spectophometric cell having a width of 1 centimeter (cm) and determine its absorbance at wave length of 410 millimicrons. Us as reference a similar cell containing saturated annimium acetate solution of the same concentration as the sample in the final dilution."

Delete "basic" and substitute "normal" in the formula.

Delete: $\frac{\text{"F-(A-B)"}}{WD}$ and substitute $\frac{\text{"F(A-B)"}}{WD}$

Where C = weight of crucible and residue after extraction with saturated ammonium acetate solution.
D = weight of crucible and residue after treating with hot water.
W = weight of sample.
M = moisture content of sample obtained from 4.5.3 in percent.

4.5.5.4: Add new paragraph as follows:

"4.5.5.4 Antimony sulfide. The weight of the residue shall be calculated from the determination of tetracene to percentage antimony sulfide in the sample on a dry basis as follows: Percentage of Antimony sulfide = $\frac{"(D-E)}{W(1-.01M)}$

Where D = weight of crucible and sample after treating with hot water.
E = weight of crucible.
W = weight of sample.
M = moisture content of sample obtained in 4.5.3 in percent."

4.5.6.1: Delete line 11 and the rest of paragraph and substitute with "required depth shall be classed defective if the detonator confinement sleeve expansion is less than .330 inch diameter, if the confinement sleeve expansion is .330 inch diameter or greater, the detonator shall not be classed defective, but the test lead classed defective and the result a no-test. The indentation depth shall be measured using a probe with a 0.017 inch plus or minus 0.002 inch spherical radius tip."

The margins of this amendment are marked with an asterisk or vertical lines to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notation. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment.
