COMMERCIAL ITEM DESCRIPTION

DISHWASHING COMPOUND, MACHINE (CHLORINATED, GRANULAR)

The General Services Administration has authorized the use of this commercial item description in lieu of Federal Specification P-D-1800.

This commercial item description covers three classes of granular, chlorinated machine dishwashing compounds suitable for use in spray-type commercial dishwashing machine equipped with or without detergent dispensing equipment. The compounds shall be designed to provide clean ware and remove coffee, tea, lipstick, or other food stains from china and plastics under heavy soil conditions in water of any hardness level, when used at recommended washing concentrations.

Class 1 - High phosphate, with caustic.
Class 2 - High phosphate, no caustic.
Class 3 - Low phosphate, with caustic.

Salient characteristics:

The compounds shall consist of chlorinating agents, water softening agents, alkaline builders. and inhibitors. Class 2 item shall be safe on aluminum and soft metals.

Percent by weight

Characteristics	Class 1		Class 2		Class 3		Test Method
	Minimum	Maximum	Minimum	Maximum	Minimum	Maximum	
Moisture	-	5.0	25.0	30.0	-	5.0	ASTM D 406
Condensed phosphates (as $P_2 O_5$)	16.0	20.0	16.0	20.0	6.0	14.0	ASTM D 800
Total silicates (as SiO_2)	4.0	17.0	13.0	17.0	-	17.0	ASTM D 800
Available chlorine	1.0	-	1.0	-	1.0	-	ASTM D 2022
Total alkalinity (as Na_2O)	-	50.0	-	30.0	25.0	55.0	ASTM D 800
Free alkali (as NaOH)	15.0	25.0	-	None	-	25.0	ASTM D 800
pH (1 percent aqueous solution)	11.5	13.0	11.5	13.0	11.5	13.0	ASTM E 70
Particle size Retained on No. 16 sieve	-	10.0	-	10.0	-	10.0	ASTM E 502
Retained on No. 170 sieve	90.0	-	90.0	-	90.0	-	

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Commercial packaging and packing. The dishwashing compound shall be packaged and packed in accordance with normal commercial practice that will assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification.

Note: Contractors may offer service for their products and supply, install, and maintain dispensing systems in agreement with the user activities.

Acceptable brand name products but not limited to:

Class 1 - Economics' Above, Guardian, Guardian Pluss, and Impact.
Dubois' Ahead, Renown, and DuXTra.
Diversey's CDC and Improve.
Calgon's Dishmate and HiLo.
Wyandotte's Detergent W102 P.

Class 2 - Calgon's Aura, and Clorade.
Dubois KloroKol, and Perform.
Wyandotte's Salute.

Class 3 - Economics' Acclaim, and Score.
Diversey's Divoklor
Dubois' Again
Wyandoffe's Clenzit
