INTERIM COMMERCIAL ITEM DESCRIPTION

AMOXICILLIN AND POTASSIUM CLAVULANATE FOR ORAL SUSPENSION

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-RST, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information.

Salient Characteristics:

Shall be palatable Amoxicillin and Potassium Clavulanate for Oral Suspension.

For Strength 1, shall be supplied as a dry mixture equivalent to 3.75g. Amoxicillin and 0.9375g Clavulanic Acid (as the potassium salt). When reconstituted to 150 ml, each 5 ml shall contain the equivalent of 125 mg of Amoxicillin and 31.25 mg of Clavulanic Acid within the applicable assay limits.

For Strength 2, shall be supplied as a dry mixture equivalent to 7.5g Amoxicillin and 1.875g Clavulanic Acid (as the potassium salt). When reconstituted to 150 ml, each 5 ml shall contain the equivalent of 250 mg of Amoxicillin and 62.5 mg of Clavulanic Acid, within the applicable assay limits.

The finished suspension shall be palatable and pleasant to the taste with no unpleasant after-taste. Not later than the time specified for opening of bids or receipt of proposals, the offeror shall submit to the contracting officer six units of the finished suspension representative of the product which the offeror proposes to furnish. A portion of the samples will be subjected to panel testing for a determination of palatability. The remaining samples will be used by the cognizant Government inspection and quality assurance activities for determining compliance of supplies furnished hereunder with the palatability requirement. Approval as to

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

palatability of any sample submitted by the offeror will not constitute approval of the sample as to any other requirements of this specification. The requirement for submission of samples for use in determining compliance with palatability requirement may be waived, provided the offeror states, in his bid or proposal, that the product he proposes to furnish is the same product he has offered to the purchasing activity on a previous procurement and the contracting officer determines that such product was previously procured and/or tested by the purchasing activity and found to comply with the palatability requirement.

A taste panel consisting of 10 members will be used to determine acceptability of samples. Samples will be prepared for testing (samples will be tested undiluted), coded, served to panel members under controlled serving conditions, e.g., all samples will be of the same amount, and served at the same temperature; each panel member will receive an equal number of samples; the order of serving will be varied among panel members; an interval of at least five (5) minutes will elapse between successive samples and panel members will rinse their mouths with water (room temperature) after each sample; panel members will test without interference either from each other or from outsiders. The product offered shall be rated equal to or better than the Palatability Standard, 1/ when determined by the taste panel, using the following 9-point hedonic rating scale. The average rating of the samples shall be equal to or greater than the average rating of the standard, similarly prepared and tested.

1	2	3	4	5	6	7	8	9
Dislike extremely	Dislike very much	Dislike moderately	Dislike slightly	Neither like nor dislike	Like slightly	Like moderately	Like very much	Like extremely

1/ The Palatability Standard is available upon separate request to the contracting officer.

The sample is considered equal to the palatability standard if its average (calculated to the nearest tenth) is not more than 0.9 units below the average (calculated to the nearest tenth) of the palatability standard.

Workmanship. The suspension shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Bottle (BT). One bottle, with a child-resistant safety closure (minimum height of 51 mm base to shoulder) and having sufficient capacity to hold 150 ml with adequate shake space, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurdisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

NSN	ITEM IDENTIFICATION	STRENGTH	SIZE
6505-01-204-5388	Amoxicillin and Potassium Clavulanate for Oral Suspension	1	1
6505-01-207-0795	Amoxicillin and Potassium Clavulanate for Oral Suspension	2	1

INSTRUCTIONS In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
